TheAquabainini

If you've been missing the comfort of bathing and have only a small bathroom, then our Aquabainini step-in bathtub is the perfect solution for you. Probably the world's "biggest little bath," its beautifully sculptured shape will fit into most spaces. It has been specifically designed to revive the joys of bath time whilst giving you the freedom to bathe alone in luxury and total safety.

The unique, inward opening watertight door means you can simply step in, sit down, relax and unwind in a bath of warm water at your own leisure. The contoured 17"/444mm high raised seat means no more struggling to get up or down and at nearly twice the height of a standard bath, you get the added benefit of a true deep soak experience from a safe sitting position.

Options include a purpose made canopy and curtain should you wish to choose a refreshing shower as well.

The Aquabainini is handcrafted in over 150 colours to match your current suite and can be installed with the same ease and speed as a standard bath. The Aquabainini has been produced by world leading designers, engineers and manufacturers with over 20 years experience in the unassisted bathing market. With added options such as temperature controlled water filling and the 14 jet spa, this is *your* bath the way *you* want it!

Let the Aquabainini bring back the joy of bathing!
