REAL WORK. REAL BRANDING.

Examples of customer logo printing on high-visibility vests. Artwork can be reproduced in a variety of colours and sizes, subject to garment suitability.

DFL — Direction Fire Ltd

Novara People

Surefix Carpentry Ltd

Carman Contracting Ltd

Photographs show completed customer orders. Customer names and logos are displayed as examples of print capability.

CHOOSE THE RIGHT VEST

Different workplaces need different garments. Choose the vest first, then select the branding arrangement that suits your team.

Standard safety waistcoats

Lightweight and practical for site visitors, contractors, warehousing and everyday workforce identification.

Executive, zipped and pocketed styles

Useful where teams need secure fastening or additional storage for pens, passes and small essentials.

Coloured and specialist options

Yellow and orange are widely used; rail and other specialist environments may require additional specifications.

BRANDING THAT FITS THE JOB

Left chest logo: discreet company identification for everyday use.

Large back print: clear branding or role identification for teams, contractors and visitors.

Multiple logos or print positions: available according to garment style and printable area.

SAFETY FIRST

Select garments certified for the intended task. EN ISO 20471 garment class can vary by style and size. Logo placement must not compromise reflective tape or required visible material. Rail work may require RIS-3279-TOM.

EXPLORE THE RANGE

Four customisable vest options. Select a product to view sizes, colours and branding.

HVW101

Supertouch standard hi-vis vest

A lightweight everyday waistcoat for site teams, visitors and bulk orders.

ORDERING MADE SIMPLE

01 Choose your vest

Browse styles, colours and sizes for your team.

02 Add your branding

Upload your logo and select the available print positions.

03 Review the artwork

Check your design preview and approve the digital proof before production.

04 We print in-house

Your branded garments are produced and prepared for dispatch.

CLEAR PRICING FOR BUSINESS ORDERS

No minimum order. No setup fees. Free digital proof. Quantity pricing is available on selected products, with the final garment and branding charges shown during ordering.

Typical branded garment production is around 7–10 working days from artwork approval, depending on product availability and order requirements. Please check your required date before ordering.
