

20-30522/20-30524/20-30526

BOOMERANG SYSTEM

The standard ST tabletops with cut-out are provided with a boomerang of 40 cm dia. The size of the cut-out may be changed by choosing another boomerang.

The boomerang may be easily replaced by loosening four thumb screws, removing the boomerang and inserting a new one. The new boomerang is fastened by retightening the thumb screws.

The boomerang is also available as a moon-shaped plate to provide a straight tabletop front.

Size	
Ø 22	20-30521
Ø 26	20-30522
Ø 30	20-30523
Ø 34	20-30524
Ø 40	20-30525
Ø 46	20-30526
Moonshaped	20-30527

The Boomerangs are mounted with four thumb screws.

The boomerang system may be used for the Multi PC-table ST and Triple PC-table.

ERGOREST

Ergorest is an ergonomic, moveable arm support for use in therapies, for workstations, laboratory work and precision work within the industry.

Ergorest may relieve and prevent pain in the back, muscular infiltration and complications in neck, elbow and wrist. The three moveable parts ensure free movement when the arm is resting on the padded support.

Ergorest may be fitted on tabletops with thicknesses between 1.5 and 4.3 cm. For

thicker tabletops the extension 20-51201 may be used.

Models 20-51200, 20-51210 and 20-51211 are infinitely adjustable in height between 0 and 7.5 cm by means of a thumb screw.

The height of models 20-51203, 20-51204 and 20-51212 may be further adjusted up to 45 cm by means of a variable rod system.

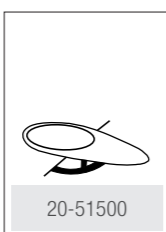

20-51200/20-51220

20-51500

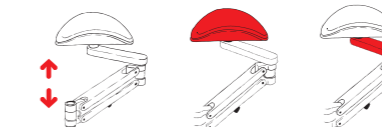

ARM SUPPORT

Arm support with built-in mouse pad for suspension on the tabletop. May be easily moved along the tabletop. The arm support is suitable for tabletops with thicknesses between 1.2 and 4.5 cm.

PC-TABLES

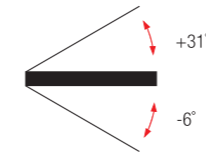

The flexible Ropox height-adjustable PC-tables meet the requirements of different users in a variety of situations. They are suitable for seated as well as standing work and ideal for wheelchair users as they have no inconvenient braces.

The PC-tables are available in various models and with several facilities. The tabletops have different dimensions, they may be divided or provided with cut-outs as well as forward/backward and angular adjustment. The Ropox PC-tables also consider special requirements, e.g. visual distance, reach and sitting posture.

The PC-tables are available in ST design with tabletops surfaced with mat, non-reflecting beech laminate.

The height of the Multi and Triple PC-tables is infinitely adjustable by means of a detachable hand crank.

The standard design is equipped with adjusting screws. Brake wheels are available as an optional feature.

Tilting facility for keyboard tray with straight front models 20-30009, 20-30109, 20-30012 and 20-30112

MULTI PC-TABLE ST

Height-adjustable computer table with monitor and keyboard trays, which may be adjusted individually.

From the basic position the monitor tray may be adjusted 20 cm forward and backward (see close-up on the previous page) to allow correct visual distance and the use of »touch-screen« programs.

The keyboard tray is available with a straight front or with a cut-out. The tray with cut-out is not tiltable.

The straight-front tray is tiltable and may be provided with an additional tray with cut-out and positive or negative adjusting facility.

The cut-out of the keyboard tray and additional tray is equipped with a boomerang of 40 cm diameter.

The size of the cut-out may be changed by choosing another boomerang (see the following page).

The tabletop is surfaced with mat, non-reflecting beech laminate and available in lengths of 90 or 120 cm.

The table height is infinitely adjustable between 65 and 130 cm.

TRIPLE PC-TABLE

Height-adjustable sitting/standing computer table with tabletop surfaced with non-reflecting beech laminate (ST design). The table height is infinitely adjustable between 65 and 130 cm. The tabletop is 120 x 110 cm with cut-out in the front (dia. 40 cm). The size of the cut-out may be changed by using the boomerang system.

The monitor tray of 53 x 40 cm may be lowered stepwise by 7.5 cm and tilted positively or negatively.

The Triple PC-table is infinitely height adjustable and suitable for both sitting and standing activities.

20-32100	CPU-holder Max. height: 50 cm Width: 11-20 cm 20-30560	Cable hanger 20-30570	Break wheels, set 20-50300 (+9 cm)

BOOMERANG SYSTEM

As a standard the ST-additional tops with cut-out are delivered with a Boomerang size Ø40 cm. The size of the cut-out can be changed by means of Boomerangs in different diameters. Just loosen four screws, pull the Boomerang out of the cut-out, push in another Boomerang and retighten the four screws. A half-moon Boomerang is also available to obtain a straight front edge of the table.

The Boomerangs are mounted with four thumb screws.
