

# litterbins & ashtrays

*Below, s11.3 litterbin with chamfer aperture*

## Litterbins & ashtrays

Litterbins and ashtrays perform a very important functional role in helping to keep our landscape free from litter. They present a great design challenge because of the number of different ways they must 'perform'; they must look attractive, they must be 'user friendly' both to the public and the operative who has to empty them and they must withstand abuse from the public and the environment.

Different locations require different solutions which is why Omos offers a range of litterbins to meet these individual requirements.

To help you choose the product that best meets your requirements we have put together this chart below:

## s41 litterbin

### description

Rolled galvanized steel top. Zintec steel or aluminium body with powder coated finish. Omos patented ashtray. Front opening with concealed hinge and slam latch.

### dimensions

Height 1026mm, width 490mm, depth 490mm.

Capacity 115L.

Weight 63Kg (Steel), 43Kg (Aluminium).

### options

Aluminium or zintec steel construction. Galvanized or plastic liner. Choice of colours. Choice of decal.

### Omos Patented Ashtray

All Omos hooded bins include as standard our patented ashtray. The unique feature of this is the way in which it is emptied; as the base is drawn open the contents drop into the liner below whilst ash build up is wiped off by an adjacent plate.

## s50 litterbin

### description

Zintec and zinc plated steel body with powder coated finish. Restricted aperture for minimising domestic use. Omos patented ashtray. Front opening with concealed hinge and slam latch.

### dimensions (std.)
