## Why timber decking for pallet racking is the safer option!

The guaranteed way of storing odd size pallets, stillages and hand loaded goods safely.

- Racking-UK takes responsibility for design - performance of the shelving is guaranteed.
- Designs are based on figures from TRADA -an independent timber research body.
- An experienced team provides quick design and quotation service.
- Manufactured using softwood selected to SC3 BS5268, kiln dried to minimise movement.
- Materials sourced from managed forests.
- On site test facility for specialised applications.

- Made to measure for ease of installation.
- 5 construction options to suit every end use:-

PTG = Planed, tongued & grooved  
 PSE CB = Planed, close boarded  
 PSE OB = Planed, open boarded  
 RS CB = Sawn, close boarded  
 RS OB = Sawn, open boarded

other options available:

- CCA treatment for exterior use.
- Fire retardant treatment.
- Specialised top surface finish e.g. galvatite steel.
