The HAIR Replacement EXPERTS.

HAIR DEVELOPMENT IS AT THE LEADING EDGE OF NON-SURGICAL 100% HUMAN HAIR REPLACEMENT SYSTEMS FOR MEN AND WOMEN. FOR OVER 40 YEARS, WE HAVE DEVELOPED REVOLUTIONARY HAIR REPLACEMENT SOLUTIONS AND SOME OF THE WORLD'S MOST ADVANCED MANUFACTURING TECHNIQUES FOR MEN WHO DEMAND THE HIGHEST QUALITY, A COMPLETELY NATURAL LOOK, UNDETECTABLE RESULTS AND GREAT VALUE FOR MONEY.

We recognise how important your hair is; not just to your look, but to your overall sense of well-being, confidence and self-esteem. That's why we have dedicated four decades to the pursuit of perfection - so you always look and feel your best.

We source only the finest 100% Indian 'Remy' human hair to guarantee a totally natural look and feel, and create the most authentic results. Each hair replacement system is painstakingly created by hand to replicate naturally growing hair and as well as an extensive range from stock. We also create custom-made systems to suit every requirement and lifestyle. Our search for the ultimate results has led

to the industry's most innovative and comprehensive range non-surgical hair replacement systems making Hair Development the benchmark for quality, service and results.

Whether you have thinning hair as a result of genetic male pattern baldness, or are experiencing hair loss due to medical circumstances, we are here to listen to your concerns and address your very individual situation.

As a wholesaler to the trade and supplier to professional salons, our products are also available direct to the public both at our London hair replacement centre, and online.

Hair Development is proudly recommended by The Trichological Society. Its founder and CEO Stanley Levy MTTs, Creative Director Janis Levy MTTs and Managing Director Mark Burns MTTs are all members of this prestigious organisation. This gives Hair Development a unique position in the industry and assures every customer of its commitment to high standards and good practice. We are also members of HABIA.

REPLACEMENT SYSTEM
begins with perfect hair*

HAIR REPLACEMENT SYSTEMS

Hand CRAFTED using the
finest INDIAN 'Remy'
Human Hair.

- 100% QUALITY ●
- 100% NATURAL ●
- 100% CONFIDENCE ●

The secret to the quality of our non-surgical hair replacement systems lies in the quality of our human hair, and we make no compromises to ensure it is the very finest available, anywhere in the world.

Using all our experience and expertise, we have a reliable supply chain to guarantee the origin, quality and ethicality of the hair used in all our hair replacement products. Only when it has been through our rigorous monitoring procedures and reaches our very exacting standards is it good enough for you.

We specialise in the finest quality Indian 'Remy' Human Hair, as only the finest human hair can guarantee a completely natural result. All our hair is:

• DOUBLE DRAWN

This guarantees quality to ensure ours is the best hair available. Double Drawn means that shorter strands are removed so hair is the same length from root to tip. Our hair is hand-selected to guarantee quality and perfection.

• 100% REMY

This means the natural direction of growth is maintained throughout our entire range. If the cuticle layer runs in opposite directions, it would have an effect similar to back combing when the hair is combed, so this feature of our hair is vitally important.

• PROTEIN MOISTURE INJECTION TREATMENT

Processed using our exclusive treatment, this finely coats and injects each hair strand with a blend of micro-polymers to render the hair super-smooth. It gives the hair additional protection to ensure it always remains in optimum condition.

• COLOUR PERFECT FOR TOTAL CONFIDENCE

Everyone's hair is different, so to ensure a perfect colour match, we have one of the most extensive ranges of colours available. Every system is made to integrate seamlessly with your existing hair and reflect the natural tonal variations, so it is very difficult to detect, even with a trained eye.

HAIR REPLACEMENT INNOVATORS

Our WORLD-RENOWNED
NON-SURGICAL
HAIR REPLACEMENT
Systems.

HAIR DEVELOPMENT HAS REVOLUTIONISED THE HAIR REPLACEMENT TECHNIQUES AVAILABLE TO MEN

As globally respected experts we have developed the most refined polymer and microfilament 'skins' meticulously hand-crafted with the finest human hair. With unsurpassed results and over 65 colours, no other hair replacement solution delivers the look, feel or promise that only 40 years of expertise and experience can deliver.

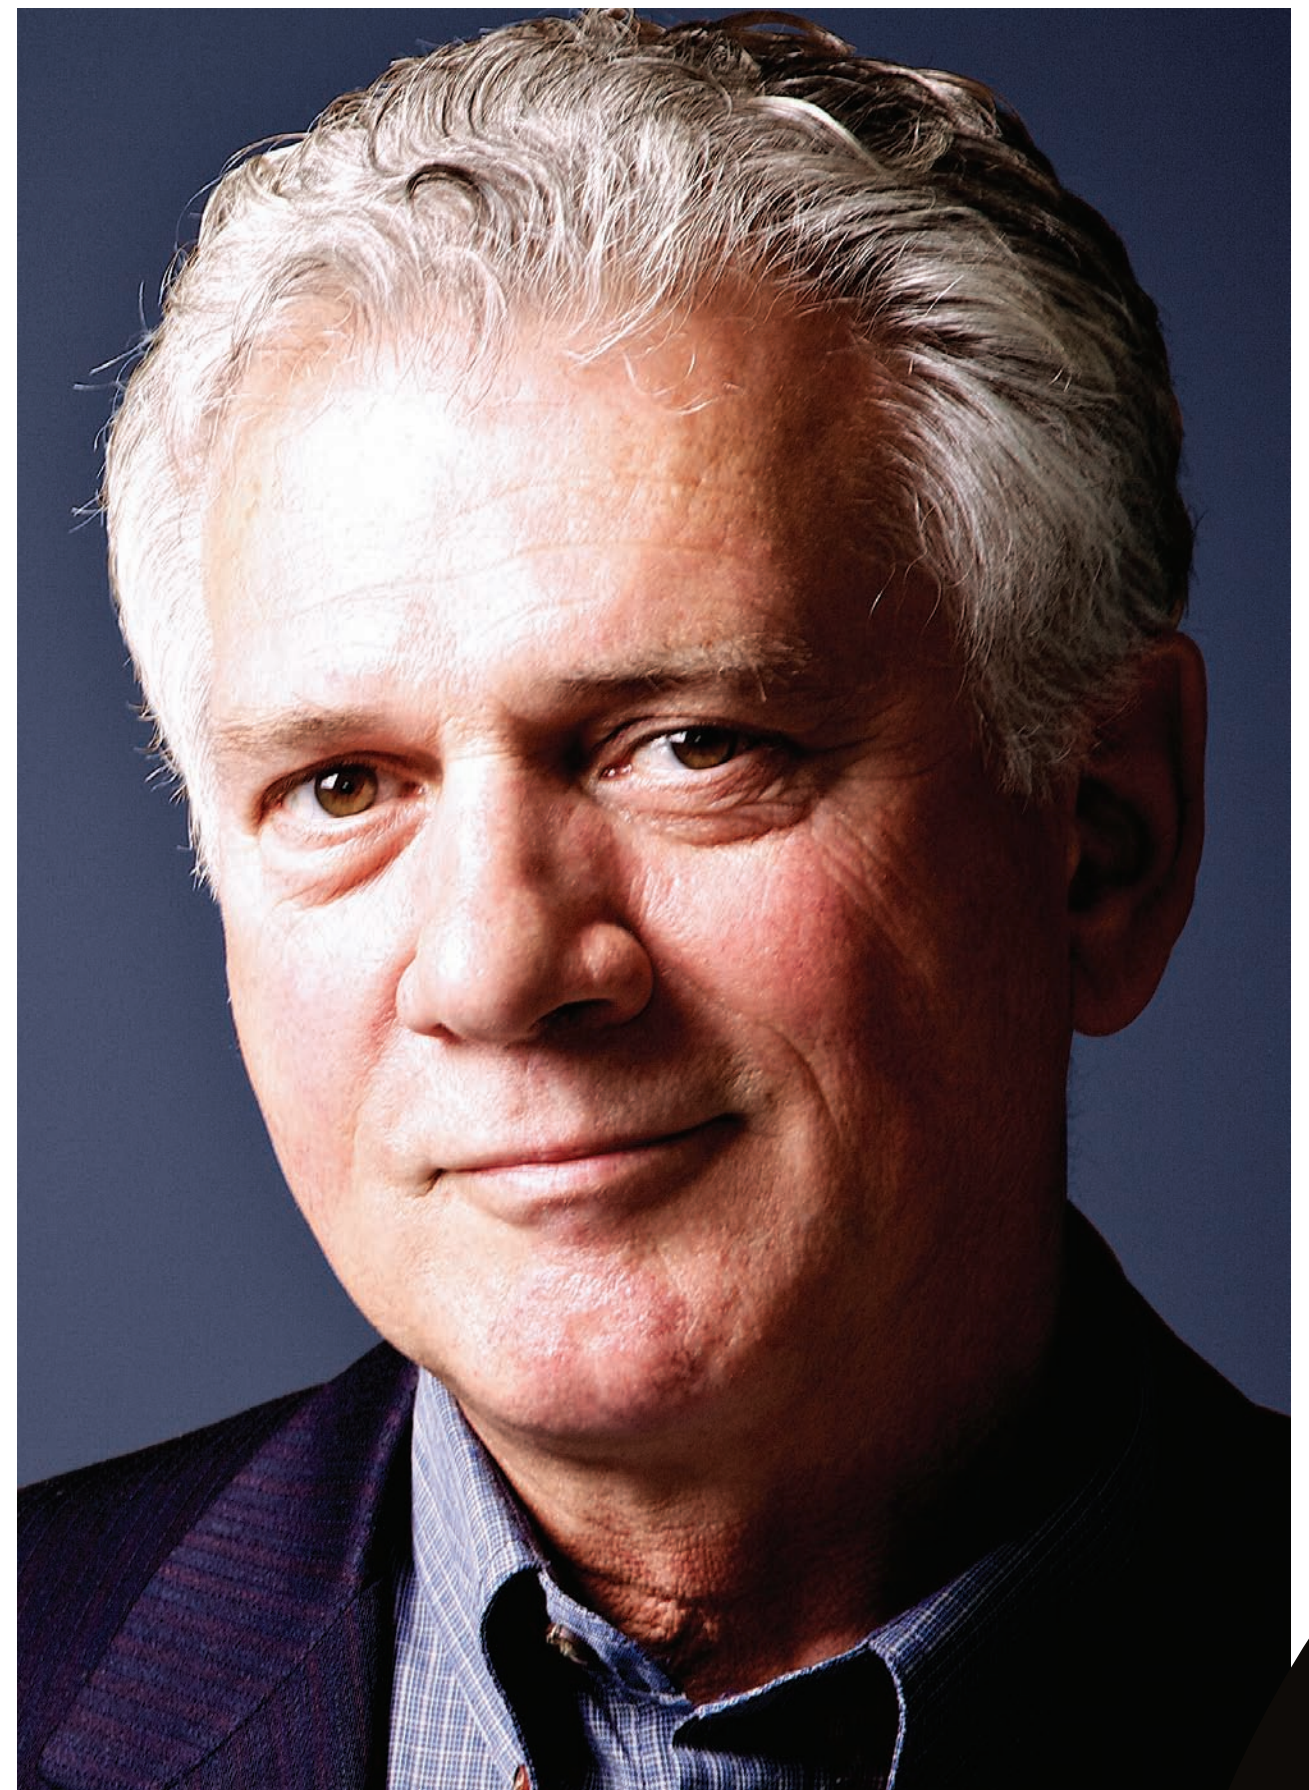

Whether you choose a system from stock or have one customised to your exact requirements, we guarantee the quality so you can live your life without worrying about your hair!

• WHAT IS NON-SURGICAL HAIR REPLACEMENT?

With so many hair replacement solutions available today, it's difficult to know which is best for you.

Losing your hair and looking for ways to maintain a full head of hair can be a stressful experience, so we have made it as easy as possible! Our cosmetic hair replacement solutions create more authentic, reliable results and they achieve a guaranteed outcome without the need to undergo dramatic surgical procedures.

Using only the finest 100% human hair, we have created a range of systems that can be fitted and styled, or we can create a custom-made system to suit your exact requirements. Whatever you choose, we guarantee 100% total satisfaction. Only you will know your secret and you can continue to live life to the full, including taking part in sporting and social activities.

M.G.H.R. - THE ORIGINAL NON-SURGICAL HAIR REPLACEMENT SYSTEM

Versatile and virtually undetectable, our experts implant the finest quality human hair one-strand-at-a-time into our unique translucent membrane.

This innovative membrane is made from natural looking polymers so it contours with the shape and size of the scalp making it undetectable, even up close. As hairs are added individually, we are able to replicate the natural direction of growth and achieve a perfect match with your natural hair colour, texture and wave. Once the scalp is hygienically prepared, the system is applied to the scalp with a medically approved adherent over its entire surface. This ensures 100% contact with the scalp creating a skin-like surface that replicates the natural look and feel of your scalp.

**SENSATIONAL RESULTS -
by sight and touch,
all you and others see and
feel is hair and skin that
looks totally natural!**

CREATORS *of the*
WORLD'S
MOST INNOVATIVE
HAIR REPLACEMENT
Systems.

• CRYSTAL LACE MICRO GRAFT HAIR REPLACEMENT (MGHR)

This handmade Hair Replacement System features a staggered hairline that is versatile, durable and ideal for styling. It is lightweight and delivers undetectable results even on close inspection.

• CONTINUOUS HAIR GRAFT (CHC)

This revolution in hair replacement is supplied as 12 identical pieces that are lightweight and totally undetectable by sight or touch. Versatile and durable, this system is implanted one strand at a time for the most amazing results whilst colour fade and time-consuming adhesive removal are eliminated.

• CELEBRITY LACE - THE WORLD'S MOST VERSATILE HAIR SYSTEM

This handmade Hair Replacement System features an undetectable lace front that merges into the scalp and reproduces hair growing naturally from the scalp. This medium density layered style is available in 65 colours and is ideal for styling. Hair can be styled off the face with total confidence!

• SKINVISIBLE - THE VERSATILE HAIR REPLACEMENT SOLUTION

Skinvisible is the ultimate stretchable wig and hairline solution ideal for alopecia or those undergoing chemotherapy treatments. The fine Swiss hairline disappears into the scalp with human hairs expertly implanted to recreate the look of naturally growing hair.

Versatile and stretchable, Skinvisible moves with the natural contours of your scalp and as well as fitting most people, it moulds to your head shape without wrinkling or creating bumps and creases. You'll forget you're wearing Skinvisible and no-one will ever know but you!

• CUSTOM-MADE SOLUTIONS

Although our hair replacement systems offer the widest choice and guarantee the most natural results possible, we recognise that some people want a fully customised piece made to a bespoke specification.

All of our systems can be customised to suit the most exacting requirements using our advanced materials and techniques to deliver the ultimate in hair replacement, at surprisingly affordable prices.

For detailed technical information, see the inserts in the back pocket of this brochure. For information and a discreet consultation, call 020 7790 4567 or email hair@hair-development.com
