POWERSAFE SBS BATTERY RANGE

A superior range of valve regulated batteries, Powersafe SBS offers an impressive extended service life, high energy density and long shelf life. Manufactured to the highest international standards using pure lead technology the SBS range offers design flexibility where space is at a premium. Advanced plate technology allows SBS batteries to function in the harshest of environments. The maximum operating temperature can be extended to +80°C with an optional metal jacket.

BENEFITS

- Absorbed Glass Mat (AGM) Construction – Maintenance Free, Non-Spillable
- 15 Year Design Life
- Wide Operating Temperature Range
- Excellent Cycling Capability
- Very High Energy Density
- Very Low Internal Resistance

APPLICATIONS

- Telecommunications
- Uninterruptible Power Supplies
- Defence Installations
- Power Generation
- Offshore

DMS technologies is a leading supplier of battery based electrical systems. We design, manufacture and supply high quality, reliable battery based power solutions to the Industrial, Automotive, Military and Telecoms markets. Our bespoke battery systems have been supplied to many Blue Chip engineering and defence companies world-wide.
