

Epoxy Floor Paint

Product Uses

- High durability coating for all floor areas including garages, warehouses, workshops, showrooms etc.

Features

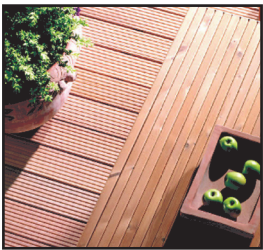

- Tough & hard wearing, suitable for vehicle traffic
- Excellent resistance to abrasion
- Bonds to most surfaces
- Anti slip additive available
- Resistant to oil, petrol and many chemicals
- Adheres well to most surfaces

NVP's floor paint (available with or without an anti-slip additive) is a two part water based epoxy floor coating for all applications where a high durability paint that is resistant to oil, grease and most chemicals is required. It is easy to apply and has the added advantage of very low odour.

Colours: White, Black, Light & Mid Grey, Blue, Red, Green & Safety Yellow

Sizes: 2.5 litre & 5 litre

Osmo - Natural Wood Finishes

Product Uses

- Wooden flooring
- External Furniture & Decking (anti-slip)
- Wooden Cladding
- Doors & work surfaces

Features

- Microporous allowing wood to breathe
- Based on natural oils
- Large range of purpose designed products

Range: Extensive range of oils and waxes, all of which are designed to be water & dirt resistant conforming to German DIN standards.

Osmo offer a large range of premium quality wood oils and stains suitable for interior and exterior applications. The environmentally friendly range include the market leading Polyx Hardwax oils for internal floors as well as a large range of exterior treatments for wooden cladding, decking or furniture. This includes an anti-slip treatment for wooden exterior decking.

Sizes: 125 & 750ml, 2.5 & 10 ltr

About New Venture Products

New Venture Products specialise in supplying safety, security and protective paints and coatings to the trade and general public.

New Venture Products was originally started in 1998 to supply the rubberised anti slip coating Protectakote made by Duram in South Africa and very successfully sold in the USA under the Durabak and Herculliner™ brand names. In 2003 New Venture Products changed ownership and started to expand its product range but only with carefully selected products that were tested and used by the company first.

The range now includes Protectakote, Protectakote UVR, Safekote, Omnicote, Osmo natural wood oils, Roofix 20/10, NVP epoxy floor paint, NVP Anti Climb Paint & warning signs and Flag Paint's range of chlorinated rubber, anti slip and garage floor paints.

Protectakote is a truly universal product with hundreds of applications from load bed liners for 4x4s, vans, pickups and utility vehicles to hard wearing anti-slip surfaces for workshop floors, lorry tail lifts, boat decks, decking, fire escapes, walkways, playground equipment to name but a few. Notable applications have included the Severn, Humber and Forth road bridges, US Coastguard and navy vessels, Royal Mail delivery lorries, specialist applications for Network rail and several recent notable sporting events.

New Venture Products can deliver goods throughout the UK and Europe both by pallet and next day parcel delivery services. Goods can be ordered online through our online shop or Ebay, over the phone, by fax or by email. All the products we sell have been tried and tested by us and offer excellent reliability, durability and value for money.

Sizes: 1 litre, 4 litre pack & Bedliner Kit

Protecta-Kote is a tough and advanced anti-slip polyurethane coating that incorporates rubber granules giving a textured finish. Wide variety of uses, from a tough van or pick up load liner to an anti-slip coating on children's play equipment. For external applications use the UVR version, uses include the Severn bridge to NATO warships.

Roofix 20/10

Product Uses

- Roof repairs, Gutters, Lead Flashing, Slates, Asbestos, Porch, Bay Windows

Features

- Built in reinforcement allowing it to bridge gaps up to 5mm.
- Quick & Easy to apply
- Adheres well to most roofing materials.
- Can last in excess of 10 years

Colours: Black, Grey and White

Sizes: 1 litre, 2.5 litre, 5 litre & 20 (4 x 5) litre packs

Roofix 20/10 Multisurface is a UV stable single pack elastomeric acrylic (non bitumastic) compound with fibre reinforcement that provides excellent flexibility and durability. It adheres to most building materials and is suitable for waterproofing and repairing flat roofs, corrugated roofs, gutters, flashings, bay windows and any other external area that needs a tough, flexible and waterproof coating.

Omnicote

Product Uses

- Tough, multi purpose black paint
- For metal, plastic and glass
- Built in rust converter

Features

- Water based
- Quick drying and very easy to apply
- Long lasting weather resistant finish
- Minimal rust marks
- Suitable for overcoating
- Tough black satin finish

Colours: Satin Black

Sizes: 250ml, 1 litre, 1 litre + 250ml bonus pack, 2.5 litre

Omnicoat is an all in one rust converter, high adhesion primer and corrosion inhibitor that doesn't need overcoating. Can be used on metal, plastic and even glass, it neutralises rust and forms a tough corrosion resistant coating. It can be overpainted with most solvent or water based paints if required but is not recommended for use with Protectakote.

Anti-Slip Floor Paint

Product Uses

- Garage floors
- Factory & Workshops floors
- General Walkways

Features

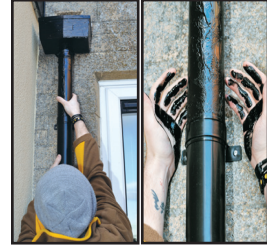

- Easy to apply straight from the tin Self priming, no sealant required. Water, Oil and chemical resistant Hard wearing and durable finish Cost effective protection

Colours: Red, Green, Grey, Blue, Black and Safety Yellow

Sizes: 5 litres, & 20 (4 x 5) litre pack

Anti-Slip Floor Paint is a general purpose hard wearing single pack polyurethane designed to seal and colour internal concrete and wooden floors. Uses crushed dolomite to give a low profile anti-slip finish. Ideal for garage and workshop floors etc etc.

Anti Climb Paint & Warning Signs

Product Uses

- Economic & Effective Burglar and vandal Deterrent
- Recommended by Police crime prevention officers
- Typical uses include roofs, lead flashing, drainpipes, fencing, walls etc

Features

- Easy to apply
- Adheres well to most building

Colours: Black, Grey and Red

Sizes: 1 litre, 2.5 litre, 5 litre, 20 (4 x 5) litre packs

Anti-Climb Paint (also known as anti vandal or intruder) is a non toxic, thick glutinous coating that never dries out. Similar in appearance to a smooth gloss paint it remains slippery indefinitely so preventing any intruder from gaining a foot or hand hold and permanently marking any clothing. It should always be used in conjunction with warning signs which NVP also hold a large range of.

SafeKote Marine

Product Uses

- Boat decks and walkways. Jetties, steps, ramps and decking Flooring requiring regular cleaning such as washrooms & kitchens.

Features

- Anti-Corrosive, impact resistant
- Tough & Weather resistant
- Colour fast
- Easy to apply to most surfaces
- Resistant to oil, diesel & many solvents.

Colours: Light & Dark Blue, Black, Light & Dark Grey, Green, Red, White, Safety Yellow and Transparent

Sizes: 1 litre & 4 litre

SafeKote Marine is a tough UV resistant single component polyurethane coating incorporating uniform silica beads that provide an attractive low profile and slip resistant surface that is easy to clean and maintain. Abrasion and weather resistant making it suitable for a great number of applications including boat and yacht decks.
