

PINPOINT®

with Biomaster® Antimicrobial Technology

How effective is Biomaster?

Very. Biomaster is proven to inhibit the growth of microbes by up to 99.99%.

Is Biomaster safe?

Yes. It is based on silver ion technology, recognised for centuries with no harmful effects. Biomaster is used in medical, food and water applications.

What's the difference between antimicrobial and antibacterial?

An antimicrobial inhibits the growth of, or destroys harmful micro-organisms such as bacteria, fungi and moulds. An antibacterial specifically prevents the growth of bacteria.

Has Biomaster been tested?

Yes, repeatedly. Biomaster is tested to ISO standards. We also undertake on-going quality control tests and environmental trials.

How long is Biomaster effective for?

Biomaster is effective for the intended lifetime of the product it's added to. It is built-in and doesn't wear off or leach out.

Does Biomaster affect a product in any way?

No. You can't see, smell or even taste Biomaster.

Can a Biomaster-treated polymer be recycled?

Yes, it doesn't affect its ability to be recycled in any way.

Is Biomaster effective against antibiotic-resistant bacteria?

Yes. Biomaster has been proven to be effective to antibiotic-resistant bacteria such as resistant *Staphylococcus aureus* (MRSA) and Vancomycin-resistant *Enterococcus* (VRE).

How do I know if a product is Biomaster protected?

Unless it carries the Biomaster symbol, you don't. Ask if a product is Biomaster protected before you buy it.

**Durable product protection
against harmful bacteria, fungi
and moulds**

PINPOINT®

with Biomaster® Antimicrobial Technology

How does Biomaster work?

1 Biomaster **binds** to the cell wall **disrupting** growth

2 The Biomaster ions **interfere** with enzyme production **stopping** the cell producing energy

3 Biomaster **interrupts** the cell's DNA **preventing** replication

Does Biomaster use nano-silver technology?

No. We don't use nano technology due to ongoing safety concerns.

Why is Biomaster better than other silver based antimicrobial additives?

Biomaster pioneered the use of antimicrobial additives, and remains the recognised leader and most trusted supplier of antimicrobial technology for polymers, textiles, paper, paints and coatings.
