About

The secure Bike Store is a flat-pack steel unit designed for use in locations where access is restricted. The new Bike Store is light enough to be man handled. The components are small enough to fit through narrow passageways; no need for cranes, forklifts or specialist tools. The demountable nature means that the secure Bike Store can easily be returned to flat-pack form for storage or reuse in a different location. Once assembled, the fully galvanised steel Bike Store is remarkably robust, with a real double locking system with insurance rated locks to BS3621 to deter the most determined thief. Assembly of the Bike Store is simple, quick and can be erected within one hour, all you require is a socket set.

Size

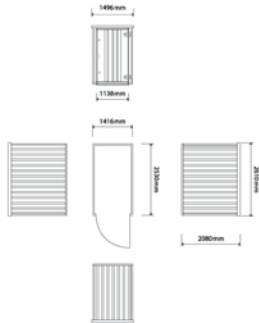

Front Profile: 1496 x 2080mm

Side Profile: 2610 x 2080mm

Footprint: 1496 x 2530mm

All flatpack units are 370mm high

All assembled units are 2090mm high

Technical Specification

Chassis & Floor

Pre-assembled 18mm thick grade 3OSB Norbord screwed to a galvanised steel box profile frame.

Side Walls, Door & Roof Panel

0.73mm box profile galvanised steel panels, strengthened with spot weld galvanised steel frame sections at the edges of each panel. The roof section has two integral gutters for effective rainwater dispersal to all four corners of the container. The door is pre-mounted into the frame on galvanised hinges, complete with two insurance rated locks and a central roller catch. Door width: 1138mm, hinges on the right, outward opening.

Prices

£1,095 + VAT per Unit.
