thermic isolating floor

**ENVIRONMENT FRIENDLY**  
no formaldehyde

# AQUA-STEP anywhere in your house... without any expansion profiles

**BATHROOM** | the children play 'storm on sea', you forgot to hang the shower curtain in the bath tube or you haven't laid the bath carpet when you took your shower? With **AQUA-STEP**, it isn't a problem.

**KITCHEN** | spoiled water while cooking, you let fall down a bottle of coke, or the dog who spoils more than he drinks, **AQUA-STEP** is 100% waterproof.

**HALLWAY** | after the autumn walk, you come home with dirty shoes and wet jackets, the friends who visit you bring a wet umbrella, **AQUA-STEP** resists!

**LAUNDRY ROOM** | dirty football outfits after the game, a soaked towel after swimming, or just a leaking washing machine, even a flood of water can not beat **AQUA-STEP**!

**LIVING ROOM/VERANDA** | moist damp on the windows, the abundant use of water for the plants, or just in the mood for an old-fashioned cleaning session with lots of water, **AQUA-STEP** can stand it.

**BEDROOM** | the children want to play 'carwash', the favourite doll needs to have a bath or just an occasional splash? Choose **AQUA-STEP**.

**PLAYROOM/HOBBY ROOM** | your favourite hobby is to model with clay, your children love to paint with aquarelle, or you just spoiled your coffee during a round game, **AQUA-STEP** can cope with this.

**OFFICE** | an urgent meeting while it's raining cats and dogs outside, no time to pull out the wet and dirty shoes, or a leaking heating, with **AQUA-STEP** water is not in.

## Did you know that?

**AQUA-STEP** can be installed on humid concrete.

When time is money, **AQUA-STEP** is certainly the ideal solution. Just enjoy and have happy-go-lucky times!

With **AQUA-STEP** you can cover a larger surface up to 900 m<sup>2</sup> without intermediate expansion profiles: from the bathroom to the sleeping room, from the kitchen to the living room... This expands a room optically.

**AQUA-STEP** in the verandah is exposed to big changes in temperature, moisture and sunlight. **AQUA-STEP** stands it all without consequences!

uninterrupted installation

**100% waterproof**

**AQUA-STEP, the first waterproof laminate floor!**

You are looking for a floor with authentic designs, a perfect quality and simplicity in installation and care? Laminate flooring is your best option.

**What to do in areas where moisture is a topic?**

With **AQUA-STEP** you can give every wet area, the floor it deserves. 0% swelling, and a top quality.

**25% MORE SILENT THAN STANDARD LAMINATE** | Do you want a floor giving you years of pleasure? **AQUA-STEP** combines **top quality and comfort of use**. Thanks to its unique form and composition, the **AQUA-STEP** planks produce an authentic and cosy sound in a natural way, no need for using an expensive subfloor. In a **universe of beauty, silence is golden!**

**ENERGY SAVE** | **AQUA-STEP** feels comfortably warm while walking on the floor. Thanks to its inherent characteristics it keeps the heat longer in the room which results in **energy saves**.

**UNDER-FLOOR HEATING** | **AQUA-STEP** can be installed in combination with under-floor heating systems.

**natural silence**  
step on it to believe it !

**easy care**  
**water and soap**

**Easy care with 20 years warranty!**

**Care** | Concerning care, it has never been so easy. Whether you choose for an old-fashioned cleaning session with lots of water or you choose for the newest flat cleaning technique, with **AQUA-STEP** you always have a straight result!

**Warranty** | Stringent testing and checks can guarantee the quality of **AQUA-STEP**. That's why a warranty of 20 years is offered regarding domestic use on : water-resistance, decoloration ,abrasion of the top floor and resistance to stains.

### Installation is a child's play!

**AQUA-STEP** includes the patented glueless clicksystem of UNICLIC that increases its practicality and enhances its beauty.

Moreover **AQUA-STEP** has an **integrated co-extruded strip of flexible PVC** on the locking element which results in perfect watertight joints, **an increased horizontal stability and a higher retension force between the assembled panels.**

With almost **no tools**, the result is a **seamless floor**. You can use your **AQUA-STEP** floor immediately after finishing the installation and is without any problem re-installable.

**fast installation**  
**no glue**

**You can choose between laminate boards that are slightly beveled off on the long sides or on both the long and the short sides which expands your room optically. This creates a sense of depth in the room. We recommend to lay the V-grooves in the direction of the light in order to emphasize the effect.**
