

## MES – SS Series with T Series Side Sealer with Heat Shrink Tunnel

For higher speed applications we offer a range of Automatic Side-Sealers, providing excellent performance and value for money. The complete system consists of a Fully-Automatic SS Sealing machine and Heat Shrink Tunnel with shrinkwrapping speeds of up to 60 packs per minute. An automatic conveyor feeds the product into the film, the machine then measures the length of the product to allow the sealing wheels to operate automatically to produce the sealed bag. The film, which is trimmed off during the packaging process, is automatically wound up on the waste film take-up reel. It is then automatically conveyed into the high capacity Heat Shrink Tunnel for excellent shrink results all around the package.

- Optional combinations of standard Seal Bar and moving head available.

- Film Dispenser sliding carriageway under the machine to save space.

- Small footprint, Heat Shrink Tunnel optional closed pitch rollers and viewing window.

# technical data

	<b>MES S30 series</b>
<b>Speed</b>	60Packs Per Minute Maximum (Product and film dependant)
<b>Sealing Dimension</b>	60-800mm(l) x 40-230mm(w) x 5-150mm(h) (Product height dependant)
<b>Film Type</b>	Polyolefin Centre folded 8-35um
<b>Maximum Film Reel Width</b>	<b>400mm</b>
<b>Safety</b>	EN13849
<b>Machine Dimensions</b>	2885mm(l) x 1060mm(w) x 1320mm(h) (excludes Heat Tunnel)
<b>Power Supply</b>	250V 50Hz 13amp Single Phase
<b>Max Power Consumption</b>	5.5KW
<b>Working Pressure</b>	6 Bar

## Options Available

Closing Conveyor, Product Collating, Polyethylene Blades, Bespoke Safety Levels, Alternative PLC's, Low Film Warning, Line Integration, Stainless Steel, Opposite Handing

	<b>MES T62 Shrink Tunnel</b>
<b>Chamber Dimension</b>	350mm(w) x 280mm(h) x 1200mm(l)
<b>Machine Dimensions</b>	900mm(w) x 1160mm(h) x 1700mm(l)
<b>Power Supply</b>	400V 50Hz 3 Phase + Neutral (Other Voltages Available)
<b>Max Power Consumption</b>	14KW

## Options Available

Close Pitch Rollers, Opposite Handing, Stainless Steel
