

UNICOLOR / HIGH BRILLIANT METALLIC

Standard Program

With the collection UNICOLOR / HIGH BRILLIANT METALLIC program we would like to introduce you to the potential options of surface refining. The program is characterized by the variety of designs, which can be achieved due to different production technologies.

- [Broschure Order.](#)

The color swatches are only renditions of the actual color as it is not possible to represent the metallic appearance. As with all of the colors shown, it is important

[Contact](#)

that a sample be requested prior to purchase of the product.
