About The Ashton Group

Established in Sheffield in 1866, Thomas A. Ashton Limited, trading as The Ashton Group, is a dynamic group of companies based at Cortonwood in South Yorkshire.

The Ashton Group is made up of three successful companies:

- Ashton Seals Limited; a leading supplier of seals, lubrication products and gaskets
- Ashtons (Sheffield) Limited; specialists in providing plastic point-of-sale packaging such as blister packs, wallets and ring binders
- Ashton Corporate Clothing; suppliers of workwear, corporate clothing and sportswear

Across The Ashton Group there is a common goal and that is to provide an excellent level of service to all of our customers and clients. This is particularly important as whilst each company retains its individual identity, the businesses serve many of the same customers.

Our customers choose us time and time again because of our ability to understand their needs, and our ability to exceed their expectations.

ASHTON SEALS

PART OF THE ASHTON GROUP

Operating from our modern, purpose built 31,500 square feet centre in South Yorkshire, Ashton Seals are THE name in the distribution of Sealing Products.

Our knowledgeable sales team are able to guide you to the best sealing solutions for your company and we aim to provide the customer with the ultimate distribution service experience through our

- Level of Technical Support
- Extensive Stockholding
- Diverse Product Range

At Ashton Seals if the solution to your problem is not available from our extensive range, then we can engineer it for you from first conception through prototyping to production parts.

THE SEALING SOLUTIONS SPECIALIST

O-RINGS

Extensive stock of O-Rings in NBR, HNBR, Viton®, EPDM and silicone as well as special materials and grades for demanding applications in the Petrochemical, Gas, Water and Food industries to name but a few. Standard sizes stocked comply with BS1806 as well as BS4518 and DIN 3771 (metric) ranges.

O-RING CORD

Supplied in any of the O-Ring materials and any cross section dimension from 1mm upwards. Also square section cord is available. We are able to produce vulcanized cord to your specific requirements.

KITS

O-Ring, Bonded Seal and Copper ring kits can be made up to customer requirements.

FEP ENCAPSULATED O-RINGS

Viton® or Silicone rings sleeved in Teflon® for extremely harsh chemical environments. Sizes from 5mm inside diameter upwards and 1.6 to 19.9mm cross-section.

BONDED SEALS

Often used as bolt seals in hydraulic equipment, today bonded seals are finding usage in many and varied applications throughout industry. All size ranges and material combinations are available. This same basic concept can be used to produce customised shapes for specific applications in any of the combinations of rubber to metal or plastic bonding.

Viton® is a registered trademark of DuPont Dow Elastomers
Teflon® is a registered trademark of the DuPont Company

OIL SEALS

All types, sizes and materials are available in both metric and imperial dimensions from 4mm to 850mm i.d.

VR ROTARY SEALS

A special type of rotary seal that does not utilise a metal spring. Capable of sealing against high pressures (up to 150 bar with certain types) and for high running speeds (40 metres / second).

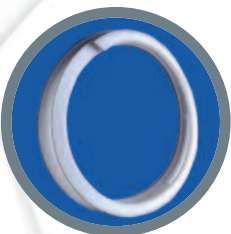

JM CLIPPER SEALS

JM Clipper's proprietary design is based on a rubber/fibre outer case and elastomeric inner lip integrally moulded to form a leak-free bond. A stainless steel garter spring provides the correct interference with the rotating shaft for an effective seal.

BACK-UP RINGS

To prevent seal extrusion under high pressure. Available in solid or spiral type PTFE or in 90 shore hard NBR.

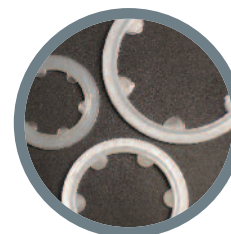

X-RINGS

Sizes to fit standard O-Ring grooves, X-Rings are ideal for reciprocating movement as they resist an O-Ring's tendency to twist or roll in the groove. Available in NBR, Viton®, EPDM & Silicone.

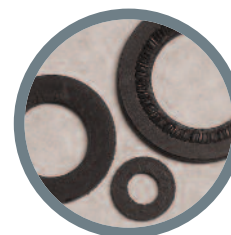

SELON SEALS

Self retaining and resistant to oils and fuels, Selon is a nylon sealing washer suitable for most pressure systems.

SELOC WASHERS

Rubber-covered shake proof lock washer.

V-RINGS

Used to protect shafts against penetrating impurities such as grit, sand etc. Available in standard materials as well as specials like low friction NBR.

CIRCLIPS

Both internal and external circlips are widely used throughout industry and many sizes are available in both metric and imperial.

EXTRUDED PROFILES

Wide range of sizes and profiles from stock. Any special shape can be made to order.

MOULDED PARTS

Our special moulding capabilities allow for any profile or rubber material to your drawing and specification.

GASKETS

With over 70 years experience in Gasket Manufacture and through using the latest CAD/CAM technology, we provide a competitive and responsive service in a range of materials, including compressed synthetic fibre (CSF), together with commercial rubber, neoprene, nitrile, EPDM, butyl, silicone, Viton® and polyurethane elastomeric sheet.

In addition, we maintain large stocks of various grades and thicknesses, of plain and rubber-bonded cork, gasket paper, felt, plain and reinforced graphite, vulcanized fibre, plastic and sponge materials and virgin, filled and/or expanded PTFE.

As might be expected of a company with our experience, we recognise and can certify to most British and many other foreign standards.

ANTI-VIBRATION PRODUCTS

The Ashton Seals' range of Anti-Vibration products has been designed to work over a wide range of machinery and meet the highest standards of quality.

Anti-Vibration Mounts are designed to reduce the level of vibration transmitted to or from machinery and equipment. We also stock a wide range of Anti-Vibration and Vibration isolation materials and pads to produce the most efficient method of controlling and reducing transmitted shock and vibration.

LUBRICATION

We are one of the leading Lubrication distribution companies in the UK and are able to provide a complete range of the highest quality grease nipples and grease guns complete with fast turn-around availability from our extensive stock.

Ashtons' exclusivity with its manufacturer offers you access to the widest grease nipple range worldwide and all grease nipples are manufactured according to international standards DIN, ISO, SAE, BS, and JIS.

We can supply approximately 70 thread types and 1,500 different designs made of zinc-plated steel, brass and stainless steel.

Our range of Grease Guns has the unique twin-lock system to prevent dummy lubrication and our range is enhanced through the number of accessories that we are able to provide. These include Tubes, Hoses, Connectors, Caps, Oil Cans and Barrel Pumps as well as a range of plastic products including jugs and funnels.

Viton® is a registered trademark of DuPont Dow Elastomers

ASHTONS (SHEFFIELD) LTD

At Ashtons (Sheffield), we specialise in the design and manufacture of high quality, point of sale packaging and bespoke promotion, presentation and stationery products. Examples of our work can be found in outlets throughout the world and our main manufacturing processes include HF Welding and Vacuum Forming.

• POCKETS & WALLET

Free standing and hanging wallets
Re-usable packs to provide post sales promotion and product protection
Range of materials available with colour, finish and gauge to suit every requirement
(Fishing Hook Wallets, Travel Wallets, Pencil Wallets, Tool Wallets)

• BLISTER PACKS

Range of formats including Slide Blisters, Clam Packs
(all available in Biodegradable material)
Crystal clear blisters for maximum visual impact
Forming delivers strength and security
Clam shells give all-round visibility and can be designed for self packaging
Available in a range of colours and materials including PVC, APET, HIPS

• RING BINDERS

Individually designed
Wide range of materials, designs, colours and finishes
PVC welded over board, paper over board
Variety of mechanisms and special features

• PRESENTERS

Bespoke Presenter Range, used for training and teaching manuals
Popular with Broadcasting Companies, Publishers and Universities
Format can be adapted to hold CD & DVDs in various permutations and sizes
Long term protection and ease of storage

• PROMOTIONAL

Coasters
Mugs
Pens
Mouse Mats
Calendars
USB Memory Sticks

• COUNTER TOP DISPLAY PACKAGING

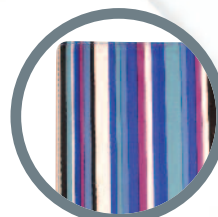

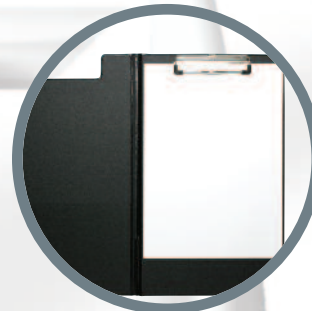

Provide high impact product display
Ideal for product launches or special promotions

• HEALTH & SAFETY

Steering Wheel Covers
No Smoking Tax Disk Holders

• PRINTING OPTIONS

All products can be screen, pad or litho printed depending on the material to give the best overall finish

Creating the right image...

Ashton Corporate Clothing was originally formed in response to demands from our existing Ashton Seals & Ashtons (Sheffield) customers for a wider choice and higher quality range of workwear.

We supply corporate uniforms for every business environment whether you have a staff of 5 or 5000 and this is reflected in the wide range of customers that we supply, including Engineering, Pharmaceutical, Leisure, Schools and Hospitals as well as being an approved supplier to the Police Force.

The use of modern materials, classic styles and excellent service continues to set Ashton Corporate Clothing apart.

The Ashton Advantage:

- No minimum ordering
- Competitive Prices
- Embroidery/Printing Service (Add your company logo)
- Personalise Individual items (names, numbers, initials)

Ashton Corporate Clothing has approved suppliers in the UK, Europe and the Far East.
