Effective use of space with in the office, offering unrivalled styling and versatility. Wide range of finishes and accessories to suit any application.

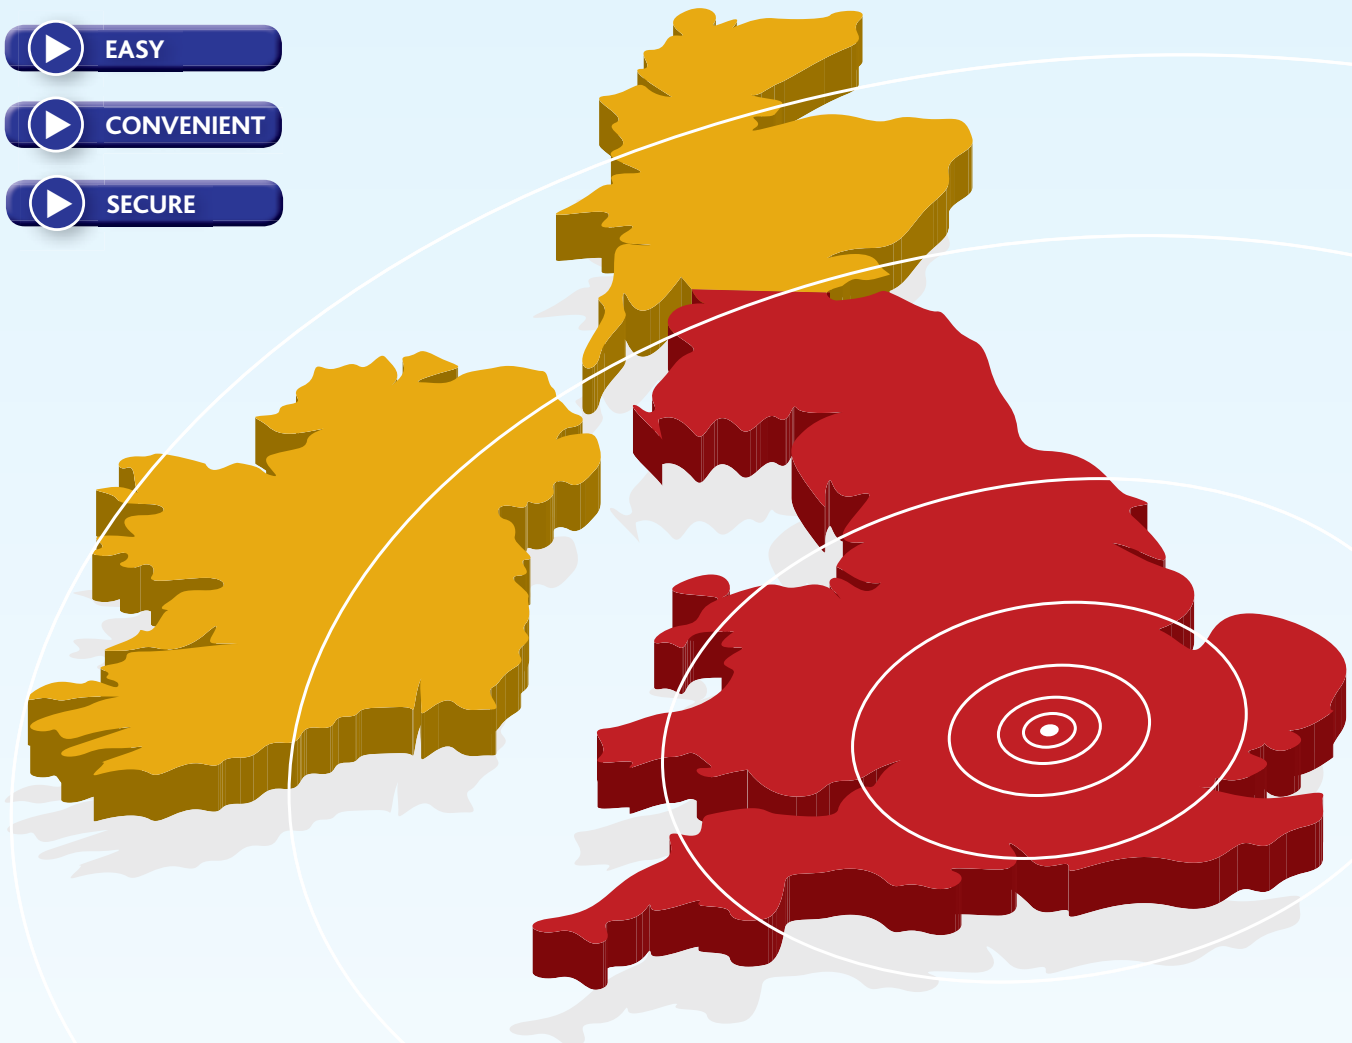

Nationwide delivery

▶ EASY

▶ CONVENIENT

▶ SECURE

▶ DELIVERY

All prices are inclusive of delivery to the areas indicated in the schedule below.

All orders under £100 are subject to a £10.00 small order charge. Goods shall be delivered within 5 days from payment, if available from stock.

Delivery will be to a ground floor location and heavy items may require fork lift unloading and/or assistance on site.

Delivery is to a business address Monday to Friday 8.30am to 5.00pm. Restricted delivery areas or residential addresses will incur a surcharge.

▶ PRICES

All quoted prices are exclusive of VAT at the prevailing rate

▶ IMPORTANT

All systems are supplied flat packed for assembly on site. Weights and loading are based on UDL (uniformly distributed loads).

If the height to depth ratio is more than 4 : 1 then the racking should be secured to the floor or wall.

Z Rivet

Our new 'Z' profile rivet system offers robust effective storage for any application. The 'Z' profile beam offers incredible strength with a shelf height of only 58mm.

The system requires only a hammer to build and just taps together. There are no nuts and bolts and the bays need no bracing therefore offering uninterrupted access on all four sides.

Bays are available in various heights up to 3660mm high, three widths to 1525mm and five shelf depths to 915mm.

bay prices from
£86.35

Bays with height to depth ratio above 4 : 1 will require fixing back to a wall or to the floor.

RIVET RACKING heavy rivet - wide bays 1830mm to 2440mm

Rivet Racking

Offers incredible value for money, whilst offering incredible strength and rigidity. The system is yet simple to build with all parts being tapped together by a rubber mallet.

All components are joined via the heavy duty rivet and key hole slot which offers a simple and effective way to assemble the racking.

All bays come with 4 levels which have a central deck support on bays 1220 to 1830 wide, while 2440mm wide bays have two per level, providing that secret strength to all our RIVET bays.

EXPO 4 back cladding & accessories

Back cladding

Light grey solid back cladding (hook in type)

Simple to fit back cladding panels that simply hook in to the upright with no fixings required, they are suitable for both single and double sided runs. The panels are recessed so they finish flush with the back of the shelves whilst also providing the bracing for the bays. Each set comprises of panels 400mm or 500mm high to make the required height of the bay, with the first panel always starting 100mm from the floor.

Galvanised welded mesh panels (2" x 2" squares)

Strong and cost effective ways of cladding double sided runs only, for single side runs use the solid cladding above or speak to the sales office. The back panel sets are made from either two or three panels to make the height of the bay. The panels rest between the two bays and are joined and secured with cable ties.

EXPO 4 wire shelf bays

Wire Shelf Bays

A new wire shelf design that fits our standard EXPO 4 shelving bays. The shelf is based on the design from our chrome wire shelving range and provides heavy duty solutions to any application.

The wire construction allows for ventilation and light around the stored products as well as being ideal for sprinkler systems. The shelf can be adjusted on clips every 25mm and can be installed straight or angled as well as been turned upside down to form a tray.

When the shelf is angled and fitted with plastic containers it makes it ideal for picking and packing environments.

- ✓ New wire shelf design
- ✓ Fits standard Expo 4 bays
- ✓ Heavy duty shelf
- ✓ Allows excellent ventilation
- ✓ Ideal for sprinkler systems
- ✓ Depths from 300 – 600mm
- ✓ Light grey epoxy finish

prices from
£155.20

**Provide light and ventilation
to stored goods**

EXPO 3 fixed height divider

Fixed Height Dividers

Expo 3 can now be fitted with our new slotted shelf panel and fixed height dividers to create bays with compartments. The dividers are available either 300mm or 400mm high and will fit 300, 400, 500 or 600mm deep bays. The bay prices below are for open shelving and side cladding prices can be found on page 13 and back cladding on page 15. Other bay and compartment sizes are available to order, please contact the sales office.

- ✓ New galvanised slotted shelf panel
- ✓ Organise your warehouse or store
- ✓ Create compartments within bays
- ✓ Dividers 300 or 400mm high
- ✓ Depths 300, 400, 500 or 600mm
- ✓ Side and back cladding (extra cost)
- ✓ Dividers can be spaced every 50mm

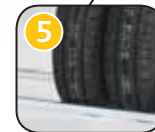

All bays are open side and back except for necessary bracing. Number of shelves and dividers are indicated below.

Tyre rack
Galvanised solid back cladding (hook in type)

Simple to fit back cladding panels that simply hook in to the upright with no fixings required, they are suitable for both single and double sided runs. The panels are recessed so they finish flush with the back of the shelves whilst also providing the bracing for the bays. Each set comprises of panels 400mm or 500mm high to make the required height of the bay, with the first panel always starting 100mm from the floor.

Back cladding

Just add the prices to the bay prices on page 28 for back clad bays.

Galvanised welded mesh panels (2" x 2" squares)

Strong and cost effective ways of cladding double sided runs only, for single side runs use the solid cladding above or speak to the sales office. The back panel sets are made from either two or three panels to make the height of the bay. The panels rest between the two bays and are joined and secured with cable ties.

Delta Edge Shelving

Our New stylish delta edge shelving is ideal for both office and warehouse environments. The delta profile offers excellent strength but has slim clean lines making it ideal for the office.

The system is an all steel construction with shelves adjustable every 25mm, with a shelf capacity of 80kgs. The 350mm deep shelf has been designed to take standard 330mm lateral files underneath adding extra versatility.

The system is available in standard sizes shown below but also other sizes and accessories are available to order, please contact the sales office.

bay prices from
£91.15

- ✓ New stylish shelving system
- ✓ Ideal for office and warehouse
- ✓ All steel construction
- ✓ Smoke white finish (RAL9002)
- ✓ True delta edge profile
- ✓ Shelves adjust every 25mm

Connect 2

Connect 2 is our new heavy duty shelving system that is constructed from only two components, the upright and shelf. The unique connection between the shelf and upright provides all the structural stability for the bay, eliminating any need for bracing, clips or fixings.

The first shelf is fitted 200mm from the floor with the remaining shelves adjustable on a pitch of 200mm.

- ✓ Heavy duty design
- ✓ Only two components
- ✓ Shelf loads upto 135kgs
- ✓ Strong Hammer grey finish
- ✓ Wide range modular sizes
- ✓ Also available as a KIT

Chrome Wire

Our chrome wire shelving system offers simple to build and stylish storage solutions. The system is ideal for home and office as well as retail display due to the open wire construction offering excellent light distribution onto the products displayed.

The shelving is also suited in kitchens for storing dry food and crockery etc, whilst the excellent ventilation through the system makes it perfect for server racks and computer workstations as well as laundry and linen stores.

The nickel chrome finish offers bright, clean and modern feel to the shelving, but should only be used in dry areas and should not come into contact with moisture.

- ✓ Strong and stylish shelving
- ✓ Nickel chrome finish
- ✓ Excellent light and air circulation
- ✓ No tools, simply slots together
- ✓ Shelf loads up to 300 kgs UDL
- ✓ Shelf pitch every 25mm
- ✓ Use castors for mobile units
- ✓ No interfering uprights in corners
- ✓ 25mm diameter post

Features:

Uprights have extra marks every 125mm for easier positioning of shelves

Every post comes with an adjustable leveller

Tyre racks

LONG SPAN racking - heavy duty

Long Span

Our Longspan system has been designed to provide economical storage whilst providing unrivalled strength and rigidity. The design offers an upright width of 47mm with a central tapered slot which offers a strong friction connection whilst being easier to install the beam levels. The beams are formed as an 87mm 'Z' profile

section with a 3 fingered claw that can be adjusted on a pitch of 50.8mm (2 inch). The beams are then fitted with deck supports on all bays 610mm and deeper. The tie also locates into the beam eliminating any beam rotation. Each level is then fitted with 18mm thick high density chipboard panels.

prices from
£116.30

Automotive Storage

Automotive
storage
solutions

We offer a range of solutions for automotive storage ranging for tyre racks, vertical panel storage as well as hanging exhaust systems.

Steel Decking Panels

We now have galvanised steel panels available in 3 depths and all beam lengths. These panels are made from 1.2mm galvanised steel and simply drop into the step down beam. The hard wearing galvanised finish offers a clean, smooth finish enabling goods to be easily placed on the shelves and any spills wiped away. Other depths are available to order within 4 weeks.

Strong welded wire mesh

levels from
£46.35

Long Span

Strong welded wire mesh, with three welded deck supports to each panel. Simply drops in place with deck supports nesting in the step down beam. These panels are excellent for storing individual components, cartons or irregular loads. These panels are fire retardant and are ideally suited for overhead sprinkler systems.

- ✓ Heavy duty welded mesh panels
- ✓ Three supports per panel
- ✓ Improve warehouse health & safety
- ✓ Fully electro-galvanised finish
- ✓ Ideal for sprinkler installations

Pallet Racking

Our pallet racking system is held in stock in the most popular sizes, we can also supply factory orders within 4 weeks.

The system compares with the best on the market and it now conforms to SEMA and FEM regulations and we are offering from stock a 6 ton and 9 ton capacity frame. We have a broad range of capacities, sizes and options which are all available from the factory. Please contact us for further information.

CANTILEVER RACK

Cantilever Rack

Strong and easy to build, our cantilever system is based on modular bays and fittings to provide cost effective storage of long and awkward items. The frames are available in 3 heights and two depths in both single and double sided configurations.

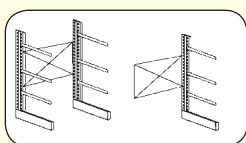

Each bay comes complete with 3 arms per frame and you can add or deduct the number of levels required. The arms can be fitted with end stops (at an additional cost shown) to secure any loose products from falling off.

The frames are spaced 1000mm apart with bolted on X brace, so you can easily work out your run using the starter and extension bay. Prices below.

Vertical Rack

Our new vertical racking is derived from our Heavy Duty Midspan system and offers a cost effective way of storing all those long and awkward items.

The system comes as a starter and extension bay format meaning long runs are more cost effective.

The bays come with 3 adjustable dividers, all necessary frames and base plates, two front beams and one back beam and base rail. Other size racks available to order, please contact your sales office.

- ✓ Great value for money
- ✓ Store all your long awkward items
- ✓ Simple to build and reconfigure
- ✓ Fully adjustable hoop dividers
- ✓ Starter and extension bay system
- ✓ Can be secured to the floor

Kanban Shelving

Rivet racking KanBan is our new for solution production line-side supply systems where sloping shelves present containers for easy access and at the right height for operatives. This can reduce costs and increase efficiency for manufacturing operations or inventory management. The two bin arrangement simplifies stock rotation and replacement. When the front bin is removed the bin behind takes it place, leaving a space that is clearly identified for refilling on the next inspection.

- ✓ New more competitive design
- ✓ improved strength and rigidity
- ✓ More ergonomic features
- ✓ Sprung loaded shelf stop
- ✓ Can be sub divided
- ✓ High density storage system
- ✓ Offers faster retrieval times
- ✓ Large range of sizes
- ✓ Goods are kept clean
- ✓ Better product identification

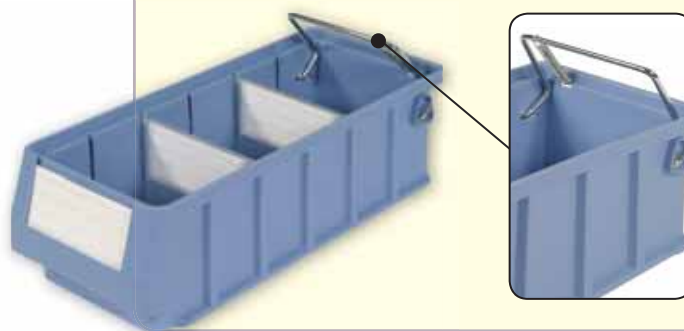

Anco Shelf Trays

Our shelf tray range has been completely redesigned with many new features that make it stronger, more competitive and easier to use. The biggest improvement is the addition of a sprung loaded shelf stop at the back of the tray. This means the tray can be withdrawn from the shelf and suspended offering around 90% clear picking. This stop also acts as handle to make it is to carry.

With shelf trays available 3 depths and 2 widths and 2 heights, any configuration can be designed to offer the maximum high density storage solution.

Trays can be sub divided from left to right and all trays and dividers come with labels.

effective use of space unrivalled styling and versatility

Freewall offers the ultimate in office storage. It provides not only a stunning look but maximises every bit of space by being fitted from floor to ceiling and wall to wall. The wide range of modular widths and depths means any space can be fitted cost effectively using a huge range of accessories.

The units can be built against existing walls or used as room dividers, creating offices without the costs of additional internal walls. We are able to manufacture in any melamine, laminate or wood veneer and also design and make bespoke units such as curved walls, audio visual walls, vertical and side

opening tambours. If you would like further information, please contact our sales office.

With all design and manufacturing of our storage wall systems being carried out in house, we have gained an enviable reputation for producing high quality work, on time and at the right price. This is backed by a knowledgeable and professional sales team and highly skilled installers, ensuring contracts are completed successfully, to cost and on time.
