About

**OUR VALUES**  
COST EFFECTIVENESS  
CONVENIENCE  
TRANSPARENCY  
QUALITY

## OUR VALUES

Smart Platform Rental Ltd is the pioneering force behind self-drive vehicle mounted powered access hire in the UK since its inception in 2002. Cost effectiveness, convenience, transparency and a high quality service have been the core values that have led Smart to provide a real alternative to traditional access solutions.

- ▶ Cost effectiveness: market beating prices by driving out unnecessary overheads.
- ▶ Convenience: register and hire on the same day; platforms can be driven on a standard driving licence.
- ▶ Comprehensive: an extensive fleet ranging in height, performance and price.
- ▶ Transparency: a stable fixed pricing structure that is published and is easily understood.
- ▶ Quality: unparalleled customer experience recognised by our certification, to the right.

We have invested in a network of five modern branches across the UK. Conveniently located just minutes from major motorway junctions, to make your hire experience with us a positive one.

Staff knowledge is a key component to the service we offer. Much of our customer base relies on our sector specific experience when specifying the best access solution for each work at height application.

We also pride ourselves on continually replenishing our fleet; the average platform age is three years old. With such an up to date fleet our clients benefit from all the productivity and safety features that modern vehicle mounts can offer.

Working  
Smarter

**SELF DRIVE HIRE**

HIRE BY THE DAY  
WEEKEND HIRES  
AM/PM COLLECTS

**NOT CONVINCED?**

OPERATED HIRES  
DELIVERY OPTIONS

## RENTAL SOLUTIONS TAILORED TO YOU

Our machines have great mobility. Unlike traditional scaffolding and self propelled equipment you can use our vehicle mounts for multiple site visits on the same hire. This spreads the hire costs over several jobs making for more effective working solutions.

### Self Drive Access Hire

We have the largest self drive light truck mount platform fleet in the country. Working heights range from 10 to 26 metres. More contractors are seeing a positive impact on their margins by choosing the self drive option.

- ▶ Market checked low hire rates and pay for just how long you need a platform.
- ▶ No down time waiting on site for platform delivery.
- ▶ You control when to collect and return.
- ▶ Free full familiarisation at the start of each hire.
- ▶ Competitively priced Collision Damage Waiver.

The move to self drive is the quick, simple and economic choice for your business.

### Weekend and AM/PM Options

Overnight and weekend working is favoured by many of our customers for sector specific needs and getting the most from their hire. To accommodate this need we provide weekend packages and reduced PM Collect or AM Return tariffs.

### Delivery

If you prefer we also offer a delivery service to your office or site.

### Operated Hire

Smart also provide fully qualified and experienced operators as an alternative to self drive.

# Training & Accessories

**COURSES FOR**  
POWERED ACCESS  
SCAFFOLD TOWERS  
LADDERS

**ACCESS ACCESSORIES**  
HARNESSES  
WIND METERS

## MORE THAN JUST TRUCK MOUNT TRAINING

Safety is paramount to us and we strongly recommend obtaining full IPAF operator certification. It often comes as a surprise to our clients that we offer work at height training for more than just our truck mounts. However, we appreciate that many of our clients use other forms of access.

We regularly run one day courses from all of our sites and offer courses in the following:

- ▶ Category 1b: Static Boom: Vehicle & Trailer Mounted Booms
- ▶ Category 3b: Mobile Boom: Self Propelled Booms.
- ▶ Category 3a: Mobile Vertical: Scissor Lifts.

Any combination of these categories can be undertaken in a one day course and provides you with a 5 year internationally recognised accreditation. If you use mobile scaffold towers we also offer PASMA certified courses. Other courses include:

- |  |                                     |
|--|-------------------------------------|
| ▶ Tower Training Course.               | ▶ Ladder Training Course.           |
| ▶ Low Level Course (eg podiums).       | ▶ Work at Height Essentials Course. |
| ▶ Combined Course (low level & tower). | ▶ MEWPs for Managers Course.        |
| ▶ Harness Usage Course.                | ▶ PAL+ Advanced Operator Course.    |

Highly trained staff using our well maintained and robust platforms are key elements for safe and efficient work at height. Another vital element are the accessories that you use.

We offer and recommend fall restraint harnesses and lanyards custom made for specific truck mount usage. In addition we also offer wind meters.

## Long Term Hire & Sales

**HIRING 3 MONTHS+?**  
CONSIDER EXTENDED HIRE

**PURCHASING?**  
NEW & USED TRUCK MOUNTS

**SERVICING?**  
MEWP LOLERS

## CONSIDERING A LONGER COMMITMENT?

### Extended Hire

If you find yourself more regularly using platforms you may wish to consider committing to longer hires (over 3 months) and reviewing the extended term schemes we offer.

A number of customers have chosen this option which can include discounted rates, predictable in-life costs, replacement machines during routine maintenance and obligatory inspections, personalised livery and free training

### Sales

If you feel that you're committed to using truck mounts to the extent where you're interested in outright purchase then we can offer a large range of new and ex-fleet vehicles ranging in platform height, age and price.

Our trucks can be offered with the following:

- ▶ Sold in a fully undecaed state.
- ▶ Full 12 months MOT.
- ▶ 6 monthly Loler certification.
- ▶ Full service history.
- ▶ 1000 miles or 1 month warranty (whichever occurs sooner).

For more information and a fully up to date stocklist please visit our website.

### Service

If you already own your own access platform, we offer a LOLER inspection service for a wide range of powered access platforms.

A stylized map of the United Kingdom in blue with a white outline. A large red circle is positioned in the upper central part of the map. Five red location pins are scattered across the map: one in the north, one in the north-east, one in the south-west, and two in the south-east.

## Further Info

### Registering

To hire from Smart is simple. You can either register online at our website, [www.smartplatforms.co.uk](http://www.smartplatforms.co.uk), or download a PDF form from the site. If you download then please complete the appropriate form then fax back on **0871 871 93 93** or email to [sales@smartplatforms.co.uk](mailto:sales@smartplatforms.co.uk). Account registration can be done in a matter of hours and we'll let you know by post, email or phone.

### Ordering

To place an order, contact us to check on availability; we recommended 3-4 days notice to avoid disappointment. To confirm placing an order, Smart require written confirmation either by fax, e-mail ([sales@smartplatforms.co.uk](mailto:sales@smartplatforms.co.uk)) or through our website.

### Hiring Process

Please note that all hires are covered under the Terms & Conditions of the Construction Plant-Hire Association (a full copy is available on request).

Platforms can be picked up from 7.30am (excluding PM Collects) and must be returned no later than 5.30pm (except for AM Returns).

### Insurances

#### Road Going Insurance

All of our road going platform vehicles must be comprehensively insured. This can be done by either including our vehicle on your fleet insurance policy or using our Collision Damage Waiver (CDW).

### Using Your Own Insurance

Each fleet policy varies, dependant on your insurance company. In all cases we will need to see a cover note or the policy document.

### Using Our Insurance

Our Collision Damage Waiver (CDW) will provide you with fully comprehensive road going cover when driving and protection against accidental damage to the boom whilst on site. A full set of terms and conditions including exclusions are provided with each hire (also available upon request.)

We need to see your driving licence before you hire - both the card and paper counterpart. You can have more than one driver for each hire - we just need to see each person's licence. In the case of 7.5 tonne truck mounts you must have a Category C on your licence.

Drivers 25 years old and over holding Full UK/EU licences with 6 penalty points or less are likely to be accepted under our standard policy. Higher levels of endorsement or lower age may be accepted subject to special conditions.

### Hired In Plant Insurance - Narrow Tracked Platforms (NT14) only

This plant is separate from the road going vehicle and needs to be insured either under your own Hired In Plant Policy or protected by our Plant Damage Waiver (PDW).

### Using Your Own Insurance

Each fleet policy varies, dependant on your insurance company. In all cases we will need to see a cover note or the policy document as proof of sufficient cover for theft, damage whilst on site or in transit.

### Using Our Insurance

Our Plant Damage Waiver (PDW) will provide you with sufficient cover whilst the machine is on hire. A full set of terms and conditions including exclusions are provided with each hire (also available upon request).

### Weekend Self Drive Hires

Platforms can be collected on Fridays after 4.30pm and must be returned by 7.30am the following Monday. Please note that CDW is also charged from Friday to Monday, if required.

### Weekend Operated Hires

Availability should be checked for at least 5 working days in advance. Weekend hires are available please call for further details and a quotation  
0333 800 6000

### PM Collection/AM Return

For a £35 tariff our platforms can be collected from 4.30pm the day prior to a hire or returned no later than 7.30am the day after. This must be arranged in advance of the hire. No individual hire can include a PM collect and AM return (except for weekend hires).

### Cancellation Policy

In the event of cancelling an order Smart must be notified the day prior to hire (cancellations for Mondays need to be received the Friday prior) no later than 4.30pm. Cancellation later than this will be subject to our lowest rate, £99.

### Delivery/Collect

This option is normally available only on hires over 3 days. Since this service is highly site specific please call for a quote for a particular hire.

### Fuel

Hirers are provided with a full tank of fuel at commencement of hire. If returned with a full tank no charge is made. With a partial empty tank being returned then a premium rate will be charged.

### Training

(all prices quoted are per candidate)

#### IPAF One Day Operator Courses **from £170**

excl VAT

#### PASMA One Day Tower Training courses **from £145**

excl VAT

#### Ladder Training Half Day Course **from £120**

excl VAT

#### IPAF Harness Half Day Course **from £100**

excl VAT

All courses provide 5 year certification.

#### Please note:

All operatives must be over 16 years of age and bring relevant safety equipment and suitable outdoor clothing with them on the day.

If it is necessary to reduce numbers or cancel then 48 hours written notice must be given and acknowledged by Smart. If this notice period is not given, the full training minus the certification charge will be invoiced.

Safety harnesses are an IPAF recommendation and are available from £69.95 plus VAT. Wind meters are also available at £35.00 excl VAT.

Engineers break down covers 100 miles from the depot UK mainland only.

Please note courses with a greater number of categories, those held on client sites or out of office hours will have a varying rate.

**For a full course syllabus and course application form, call 0333 800 6000.**
