OUTDOOR PLAY EQUIPMENT & SAFETY SURFACES

**ACTIVE** PLAY TOWERS  
COMMERCIAL BROCHURE

A photograph of three children playing on a wooden playground structure. A girl in a pink patterned top is in the center, smiling with her arms raised. To her right, a boy in a yellow t-shirt is also smiling with his arms raised. To her left, another child is partially visible, also smiling. The background shows green foliage.

## KEEPING CHILDREN **ACTIVE, HAPPY & HEALTHY** THROUGH OUTDOOR PLAY

## ABOUT US ►

---

*Established in 2004 and based in Herefordshire, Active Garden Ltd has worked hard to build a great reputation for quality, reliability and expertise within the playground industry.*

Our main customers throughout the UK include schools, nurseries, public playgrounds, pubs, restaurants, hotels, farm shops and constructions companies, among others.

As an independent playground supplier, we can source equipment from different manufacturers as well as build our own. This gives us the flexibility to mix and match products, to suit your design and budget.

We aim to have happy and safe children enjoying our playgrounds. So quality and attention to detail are extremely important to us. All of our products and surfaces comply with the relevant standards. All the timber items we sell use responsibly sourced FSC timber.

# ETHOS & APPROACH ►

We are absolutely delighted with the work you have done at Ombersley play area, and are having so many lovely comments from people. You have been amazing to work with throughout the process, the quality of the installation is superb and it looks wonderful. Thanks to Adam for pressing on despite the set backs and poor weather, and providing sound advice throughout. We're so pleased with it - and now we're into the summer holidays, it's great to see so many children enjoying the equipment.

Ombersley Playground Committee.

We see every project, no matter how big or small, as an opportunity to get children to enjoy playing and learning outdoors. We produce our own range of commercial play towers for children from 2-12 years old.

Our **robust ACTIVE** towers are made with **Pressure Treated Redwood** of excellent quality, planed with rounded edges and have a **10 year guarantee** against rot and infestation.

All the components on the **ACTIVE** towers are commercial standards (slides, nets, rocks, etc) and have been designed to **comply with regulations for commercial play equipment EN1176-2017**.

We offer standard towers but you can choose the platform height and accessories to create your own. We make our towers in our workshop so we can also modify them to make **bespoke** pieces to fit your space and needs.

Our towers **include installation** by our in-house team.

---

## How we Work

- 1 Initial contact: email, phone call or visit (if necessary)
- 2 Design and quotation
- 3 Manufacture and installation
- 4 Happy customers!

## What we Offer

- Pressure treated Redwood
  - Commercial standard slides

## TESTIMONIAL

Hi Marianela, we absolutely love the garden, the children are loving the garden, the staff love the garden. We would like to say thank you so much for making our dreams come true!!

**Emma, The Orchard Nursery**

## SURFACE SPECIALISTS

An all important aspect of creating a year round usable play space is to choose the best type of surface for the project.

Choosing a safer surfacing for your play area is a big decision which can also be costly. We can help you find the right one for your circumstances.

We are well placed to advise, recommend and install the right surface for your project.

All of our installations are carried out with our in-house team of expert surface installers.

Our surfaces and installations meet EN1177 specifications for critical fall height, using the best materials available.

We guarantee our installations for between 5 years, depending upon the product installed.

We provide the following surfaces:

» **Wetpour:** EPDM rubber granules in black or bright colours, bonded with resin. Can have intricate graphics to enhance the look of the play area.

» **Bonded rubber bark:** Recycled rubber mulch in colours, bonded with resin. Porous and textured gives good grip and keeps the area dry for all year round play. Ideal for a more natural look.

» **Artificial grass:** A very popular product, keeps the playground soft, green and clean all year round.

» **Rubber grass mats:** an affordable solution, to protect against fall and keep the natural grass look.

» **Recycled rubber chippings:** recycled rubber with fun colours, used as a loose fill product. An upgrade on organic woodchip.

» **Rubber tiles:** Great for areas with flat and hard surfaces, creating a floating rubber floor.

## TESTIMONIAL

I love the grass, its brilliant. The boys were fab and worked really hard. Thanks!
