

TECHNO RUBBER COMPANY

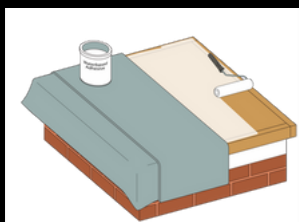

TYPICAL INSTALLATION

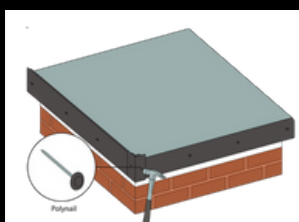

Your roof is stripped and decking is checked and repaired. Ensure deck is dry and clean.

Position **Techno EPDM** on the roof and allow to relax for 30-45 minutes, slightly longer in colder temperatures.

The membrane is fully adhered with a cold applied adhesive.

Attractive edge trims seal the perimeter and the site is left clean and tidy.

FUTURE PROOFING

ONE PIECE HIGH PERFORMANCE ROOFING SYSTEM

Ideal for any residential, commercial or industrial flat roofing project, **Techno EPDM** roofing membrane is a durable, long-lasting and trouble-free system.

Techno EPDM is compatible with a range of substrates and comes in two thicknesses, 1.2mm or 1.52mm.

COLD APPLIED INSTALLATION

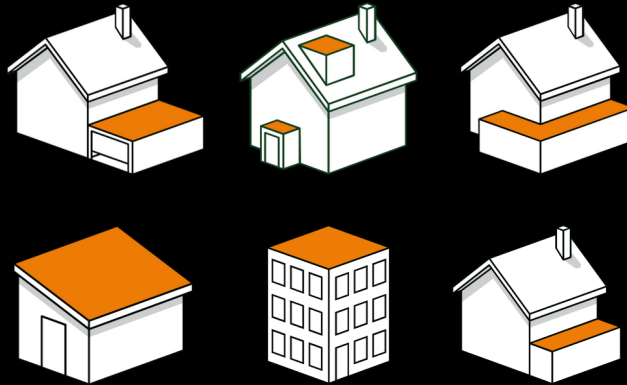

Techno EPDM requires no heat or naked flames to install, making it easier, faster and safer than alternatives.

EXCEPTIONAL DURABILITY

Techno EPDM offers unmatched resistance to ozone, UV radiation, weathering and retains its physical properties over several decades.

LOW LIFE CYCLE COST

Techno EPDM requires little to no maintenance and its outstanding lifespan and speedy installation results in a very low life cycle cost.
