

# Complete entrance solutions for food and beverage manufacturing

**ASSA ABLOY**  
Entrance Systems

High speed interior,  
exterior and specialist doors

Experience a safer  
and more open world

## The best doors are fast, safe and won't let you down

The best doors – interior, exterior or hygiene – provide peace of mind.

They keep pace with your workflow and access needs. They separate production areas and keep raw material, processing and packaging environments clean, compliant and free from contamination, humidity and particles.

They help maintain and control temperature. And they protect workers and help regulate access to all areas of your facility to keep it secure, even if there's a power failure.

In short, a great door helps keep processes hygienic and safe, productivity up, downtime to a minimum and operations flowing swiftly, safely and smoothly, day after day.

# Maximise quality, safety and uptime throughout your facility

Built to last, our complete range of automated entrance solutions meet the strict food quality standards of the most demanding processes, from sterilisation and high-pressure processing, to packaging and cold storage.

All of our automated doors are available with numerous customization options, from configuration and settings, to colour, size and a range of accessories.

And our expert consultants are always on hand to help you find the best automated entrance solutions for your facility.

Pedestrian doors

Our complete range of automatic sliding, swing and revolving doors improve accessibility, safety, security and energy consumption.

Sectional Industrial Doors

Our attractive and easy to operate, glazed and panel overhead sectional industrial doors are a durable, tight-sealing fit for all manner of industrial and commercial facilities.

Docking solutions

Our full range of dock levellers, shelters, loadhouses, restraint systems and accessories help keep workers safe and maximise the flow at your loading bay.

Exterior doors

Robust and versatile, our exterior doors combine fast operation with tight sealing and excellent durability to keep processes running smoothly.

## Space-saving environment control

A true all-rounder, the rapid-roll ASSA ABLOY RR300 Plus Stainless Steel is perfect for a wide range of interior separation needs.

## Protect your processes and your people

When it comes to protecting processes and brand integrity, our Food processing high speed doors meet the most stringent industry health and safety standards.

Strong and reliable, with smooth, easy-to-clean surfaces, our Food processing high speed doors can be relied on to protect product quality and keep production on track.

## High speed, reliability

Protect your production environment against draft, dirt, dust, and humidity with the high-speed ASSA ABLOY HS9010P.

## Separate areas without slowing operations down

With fast opening and closing speeds, our high speed and rapid roll doors are designed for areas where climate-control and high traffic volumes are critical to your business.

Available with tight sealing, pressure resistance and smooth surfaces, our high speed internal doors also provide complete separation for process areas that need to be isolated.

Exterior doors

## Smooth and silent

Specially developed for loading bays, the ASSA ABLOY RR3000 saves space and offers protection and security for people, property and equipment.

## Boost safety and security with speed and style

Robust and versatile, ASSA ABLOY exterior doors combine rapid operation with tight sealing and excellent durability to keep production and processes running smoothly.

All our doors meet strict industry standards and help minimise the spread of airborne particles or risk of contamination, ensuring that the strictest hygiene and safety standards are not compromised.

Loading bay equipment

## Safety you can rely on

Wherever the risks are at your loading bay, ASSA ABLOY has a solution to keep workers safe and minimise the risk of accidents or injury.

## Minimise risks during loading and unloading

To make loading areas a safer place to work, the right equipment and regular maintenance is key.

ASSA ABLOY offers a full range of dock levelers, shelters, loadhouses, restraint systems and other docking accessories to keep workers safe and maximise the flow of goods, people and vehicles at your loading bay.

Automatic pedestrian doors

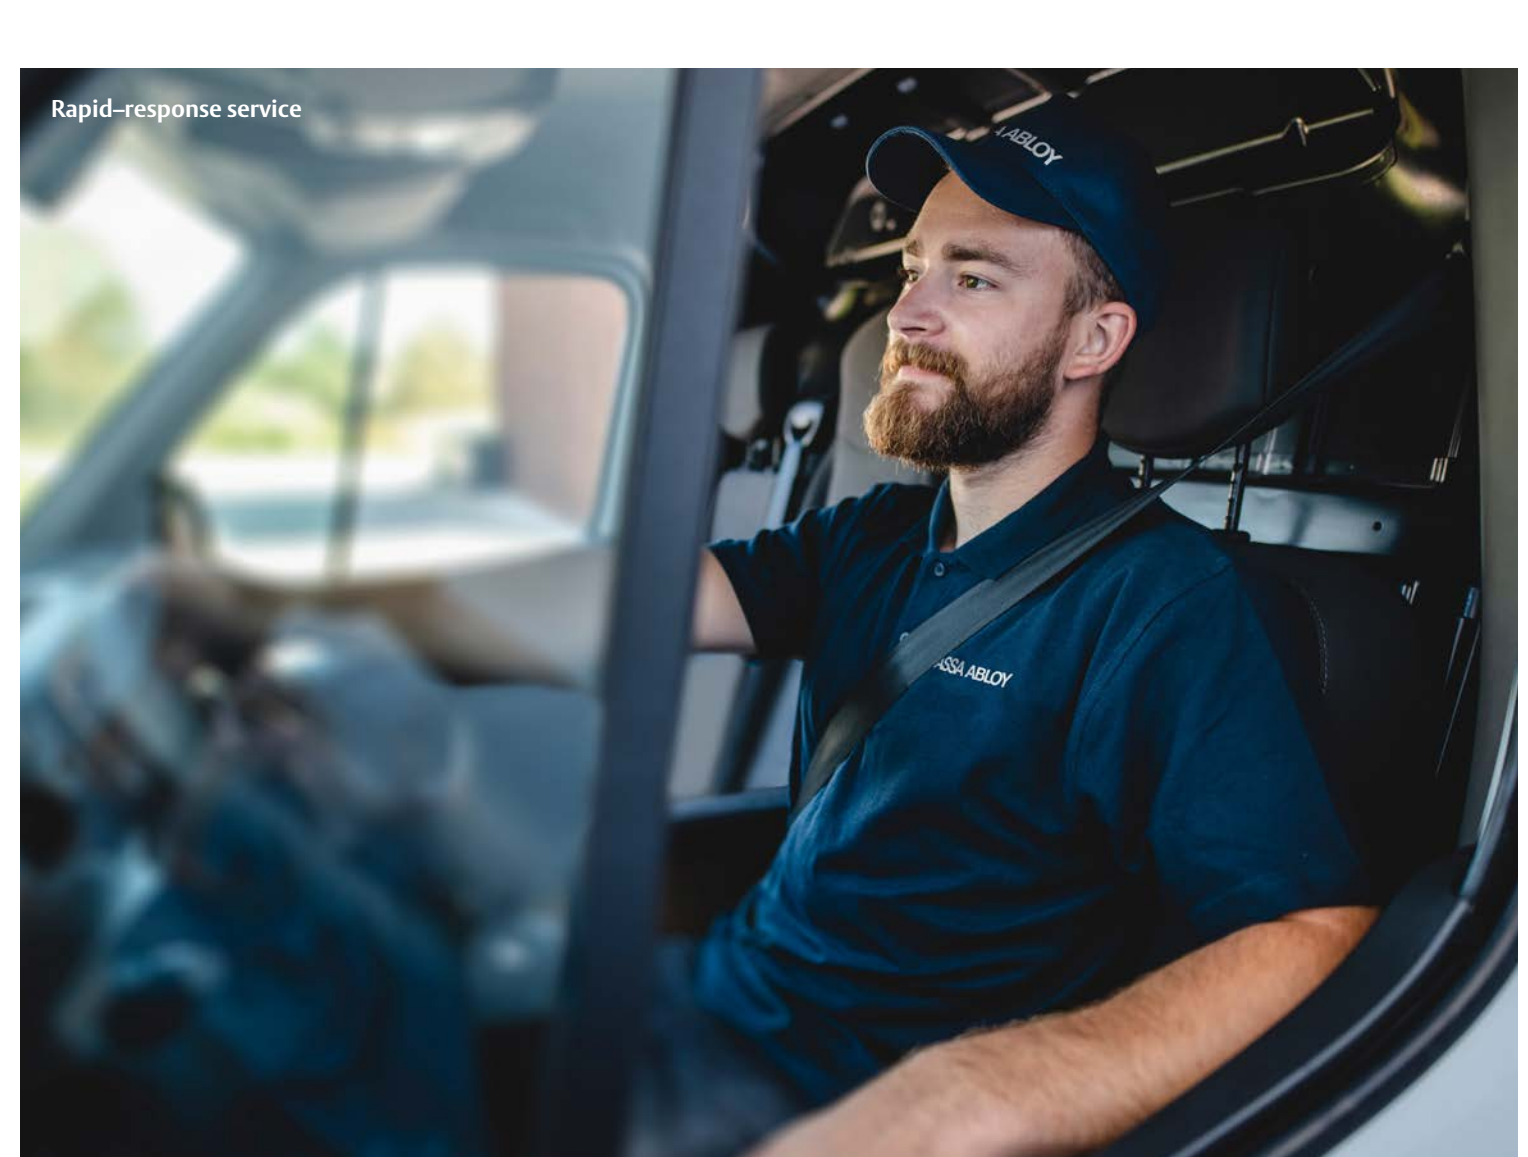

## Ensure easy, safe access to your facility

Maintain a comfortable indoor environment and ensure people can come and go easily and safely with our automatic pedestrian entrances.

Our complete range of automatic sliding, swing and revolving doors improve accessibility, safety, security and energy consumption into, out of and through your facility.

Rapid-response service

## Keep processes running smoothly with fast, efficient service

Our doors set industry standards in safety, security and convenience. Like all equipment with multiple components and moving parts, automated doors need regular maintenance to stay in great working order.

We offer the industry's most complete, flexible service solutions, including regular safety, compliance and quality control checks. And our trained and certified technicians respond quickly to any issues to ensure that your doors are fully operational, and downtime is kept to a minimum.

### Our service options include:

- Always available, 24/7
- Original spare parts manufacturer
- Service for all doors, regardless of brand
- Operations always according to current regulations
- Appropriate documentation provided on site

The ASSA ABLOY Group is the global leader in access solutions.  
Every day, we help billions of people experience a more open world.
