# Yeoman Shield Fire Rated Door Protection Products

Keep doors in optimum working condition with the help of Yeoman Shield fire rated door protection products

Prevent damage that is unsightly, can harbour germs and more importantly in the event of a fire can prevent a door from sealing properly and compromise the compartmentation system.

Available Supply Only or Supply & Fix these fire rated products provide vital all round defence from impact damage for both fire and non-fire rated doors.

When installed Yeoman Shield fire rated products do not affect the integrity of a fire door.

## Supply Only

A Yeoman Shield experienced Area Sales Managers can carry out a free site survey for Supply Only door protection products. They can collate information on quantity and sizes to raise a fully itemised quotation for your building project.

**N.B.** It is fire door best practice to ensure that products fitted to a fire door are done so by a Third Party accredited installer under the guidance of the product fixing instructions and fire reports.

# The Yeoman Shield Door Protection Range

Door Edge Protectors

Door Panel Protectors

PVCu Clad Glazing Beads

Frame & Architrave Protection

# Yeoman Shield Fire Door Services

Supply & Fix work must be carried out on any fire rated doors and frames by an accredited installer/joiner.

Harrison Thompson (brand name Yeoman Shield) are a FIRAS accredited company whose directly employed fixing operatives can carry out remedial and installation work under **FIRAS** best practice guidance for fire doors.

All work carried out by our fixing operatives will be issued with a Certificate of Conformity which will offer assurance on the condition of a building's fire doors.

**Our installation and remedial work services are carried out under our FIRAS Third Party certification and involves the following:-**

A condition report carried out by a member of our certified Fire Door Management Team which will detail work to be carried out to bring the doors back to an acceptable standard and integrity in accordance with best practice

Our fire door assessment survey is a chargeable service. Please contact us for current fees.

This report will enable us to provide you with a quotation for the work identified from the survey.

It will include doors and frames as well as any Yeoman Shield door protection products requested or advised.

All work carried out under the project will be registered on the FIRAS database and a copy also sent to the client.

This provides traceability for the future and offers conformity of the work carried out.

# Why Carry Out Fire Door Maintenance

## Article 17 - RRFSo

First and foremost, article 17 – RRFSo which in a nutshell states fire safety provisions (includes fire doors) must be maintained in a suitable condition and working order.

## Life Safety and Property Protection

Maintaining fire doors so that they work correctly in the event of a fire.

## Economics

Prevention is better than the cure as they say and having a good maintenance routine will dispel some needs of replacement therefore being more cost effective.

## Responsible Person

If you are the responsible person it's imperative you appoint a competent person to assist in meeting your duties under the fire safety order to ensure fire safety measures are kept in working order.
