

PSTN SWITCH OFF

UPGRADES TO NATIONAL TELEPHONE SERVICES

BT is upgrading telephone services across the UK as the existing PSTN infrastructure approaches the end of its lifespan in January 2027. With newer digital technologies set to replace it, more than 16 million lines and channels must transition to alternative solutions before the network is decommissioned.

Now is the perfect time to consider how this change may impact your business. We're here to support you throughout the transition.

Get in touch with our telecoms specialists to explore the alternative services available for your business.
