About Us

At Texam Ltd, we specialise in delivering high-quality industrial solutions with a strong emphasis on technical expertise, extensive stock availability, and advanced manufacturing capabilities. We are Northern Ireland's foremost independent stockist and trusted distributor for many leading brands. We provide a wide range of products, including pneumatics, gearboxes, motors, conveyor components, engineering plastics, PVC strip curtains, Connect-A-Tube and power transmission products.

Our team of specialists are dedicated to offering expert technical support, ensuring you receive the most efficient and cost-effective solutions for your specific needs. We pride ourselves on maintaining a large inventory of essential components, ready for immediate dispatch to minimise downtime and keep your operations running smoothly.

In addition to our comprehensive product range, Texam has state-of-the-art manufacturing capabilities.

We produce custom conveyor rollers and design tailored conveyor systems in-house, providing rapid, high-quality solutions for various industries. Whether you need a single gearbox, a custom-built geared motor, or a complete conveyor system, Texam is equipped to deliver reliable, efficient results with quick turnaround times.

With our commitment to excellence and customer satisfaction, Texam Ltd is your trusted partner for all your industrial requirements.

Pneumatics

As a Gold Industrial Sales Partner of SMC Pneumatics, Texam delivers unrivalled pneumatic solutions. Our expertise includes:

- Comprehensive product range: From single components to complex circuits
- Unrivalled in-house technical support: Expert advice for all pneumatic requirements
- Extensive stock availability: Quick access to parts from our warehouse
- Rapid supply chain: Direct links to UK and European SMC warehouses
- Custom solutions: Tailored pneumatic systems for unique applications

Whether you need a replacement part or a complete pneumatic system design, our team of specialists ensures you receive the most efficient and cost-effective solution.

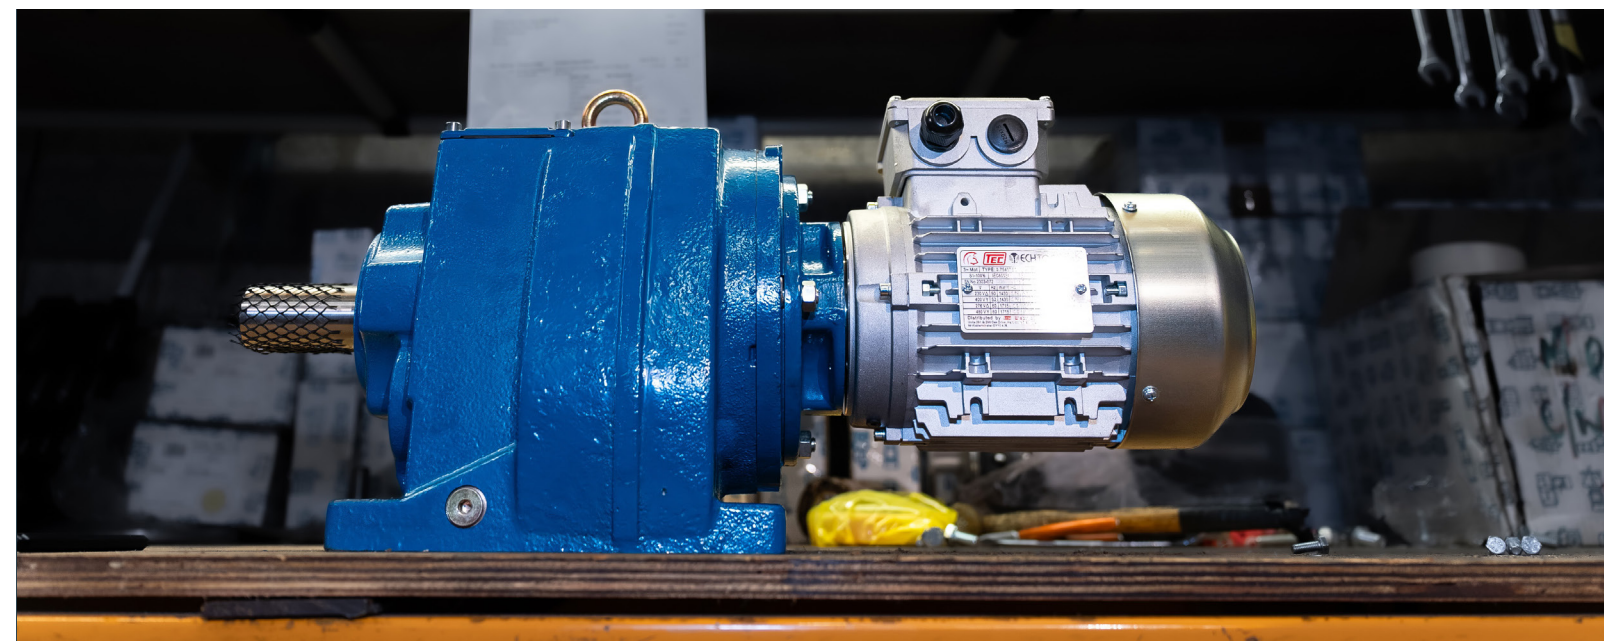

With Texam's gold-standard service, your pneumatic requirements are in expert hands.

Gearboxes & Motors

As an authorised distributor for Radicon and Hydro-Mec, Texam offers a comprehensive range of gearboxes and motors:

- Extensive selection: Inline, worm, helical worm, and helical bevel gearboxes
- Customisation: Units built to your exact specifications
- Versatility: Suitable for a wide range of industries
- Compatibility: Interchangeable with many leading brands
- Complete packages: Fitted with standard IEC motors in various mountings
- Quick delivery: Same-day service available for many geared motors

Our extensive stock and assembly capabilities ensure we meet your power transmission needs promptly and precisely. Whether you require a single gearbox or a custom-built geared motor, Texam delivers reliable, efficient solutions for your applications.

Conveyor Rollers

Texam specialises in manufacturing custom conveyor rollers in-house:

- **Precise specifications:** Conveyor rollers made to exact requirements
- **Quick production:** Same-day manufacturing for many types of rollers
- **Versatile options:** 30mm and 50mm diameter rollers
- **Material choices:** Stainless steel and plastic
- **Spindle variety:** 8mm or 10mm stainless steel spindles
- **Rapid delivery:** Minimising downtime for your operations

Our state-of-the-art facility ensures high quality, tailored rollers with the fastest possible turnaround times, supporting efficient material handling in various industries.

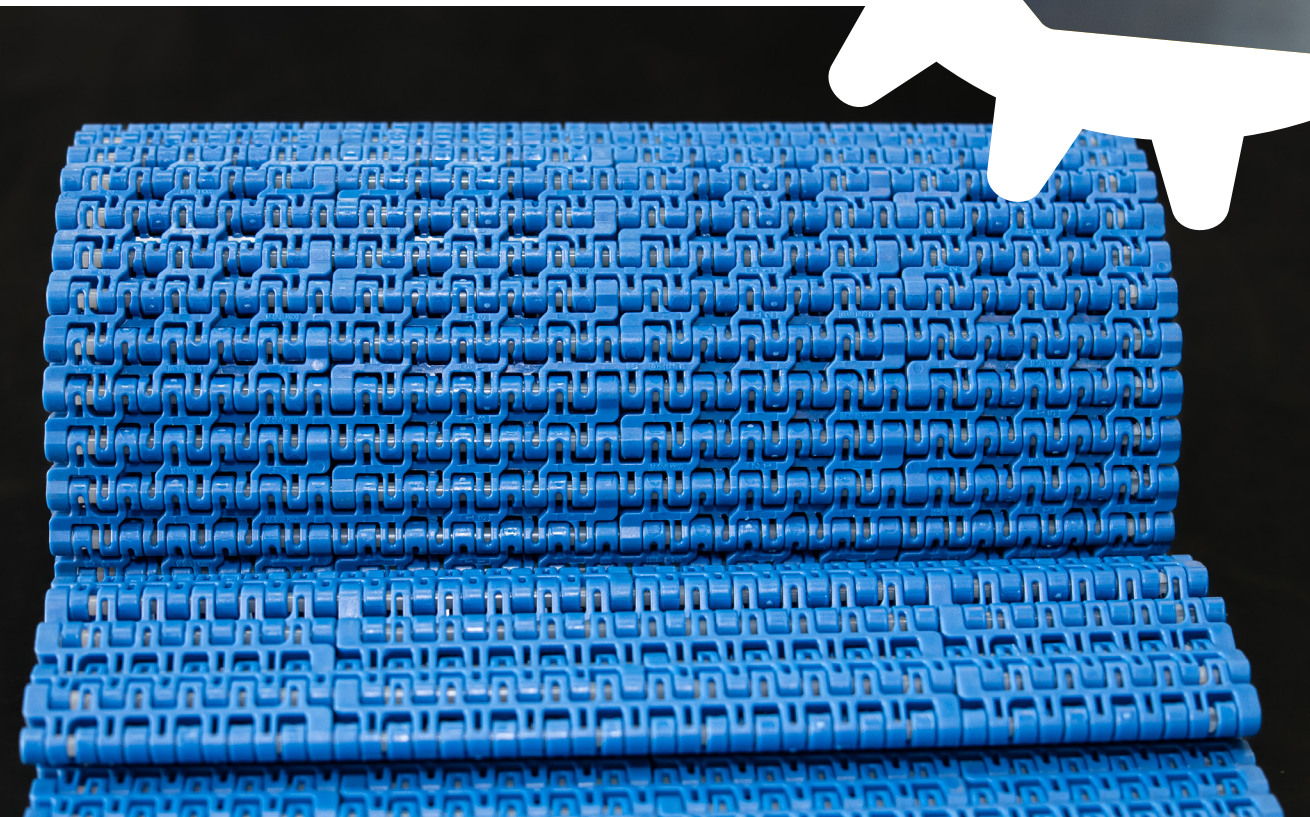

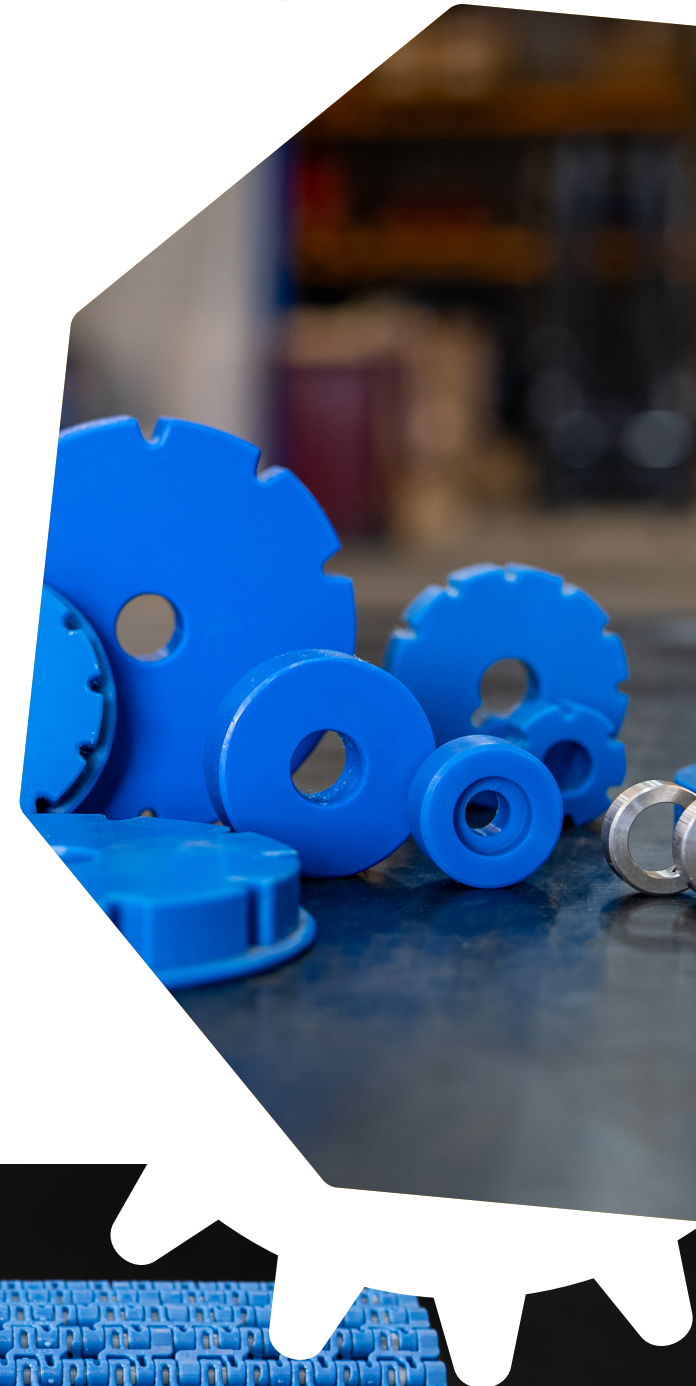

Conveyor Components

Texam offers a broad range of high-quality conveyor components:

- **Extensive selection:** Conveyor belts, wearstrips, guide rails, bearings, and more
- **Sourced from leading manufacturers:** Ensuring reliability and performance
- **Large inventory:** Wide range of components in stock
- **Quick supply:** Fast turnaround times for most items
- **Expert advice:** Guidance on selecting the right components for your system
- **Compatibility:** Components to suit various conveyor types and applications

Our diverse stock and industry expertise enables us to provide efficient solutions for all your conveyor component needs.

Engineering Plastics

Texam is Northern Ireland's leading independent stockist of polyethylene engineering plastic:

- **Extensive inventory:** Large stocks of PE500 and PE1000 sheets and rods
- **Custom cutting:** State-of-the-art machinery for precise cutting to your specifications
- **Quick turnaround:** Fast service for both stock items and custom-cut pieces
- **Versatile materials:** Suitable for meat processing, industrial applications, and more
- **Quality assurance:** High-grade materials known for durability and chemical resistance
- **Expert advice:** Guidance on material selection and sizing for your specific needs

From full sheets to custom-cut pieces, we provide rapid solutions for all your engineering plastic requirements, ensuring you get exactly what you need, when you need it.

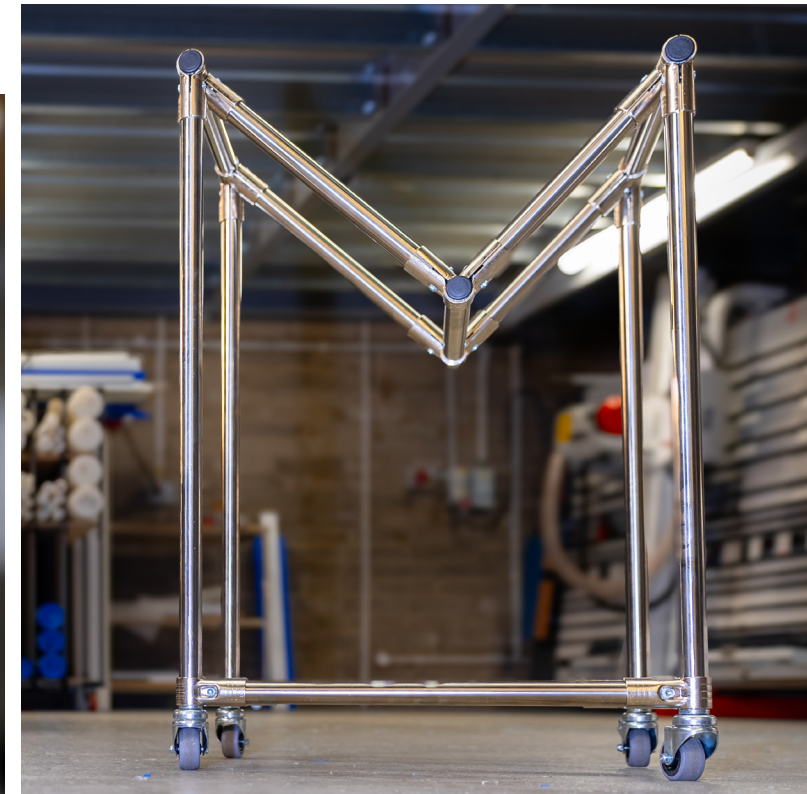

Connect-A-Tube

Connect-A-Tube is Texam's trademarked pipe and joint system, designed for versatility and efficiency:

- **Versatile components:** Sturdy tubes and connectors for endless configurations
- **Easy assembly:** No welding required, allowing for quick setup and modifications
- **Applications:** Ideal for workstations, carts, trolleys, racking, and more
- **Lean manufacturing support:** Facilitates efficient production processes

- **Customisation:** Design flexibility to meet specific workspace requirements
- **Durability:** Strong, long-lasting materials suitable for various environments

Whether you need a simple storage solution or a complex material handling system, Connect-A-Tube offers an adaptable, cost-effective approach. Our team can design custom solutions or provide components for self-assembly, ensuring your unique needs are met.

Connect-A-tube

PVC Strip Curtains

Texam offers comprehensive PVC Strip Curtain solutions:

- High stock levels: Large inventory of PVC strips ready for immediate dispatch
- Complete manufacturing: Ability to produce full curtains to your specifications
- Multiple grades: Standard, food grade, and polar grade options available
- Various widths: PVC strips supplied in different sizes to suit your needs

- Customisation: Strips cut to specific lengths from 50m rolls
- Full kits: Stainless steel brackets and hanging rails included for durability
- Expert assembly: Option for Texam to manufacture and install complete curtains
- Colour options: Available in various colours, including welding booth materials

From individual PVC strips to fully assembled curtains, Texam provides quick, tailored solutions for energy saving, temperature control, and dust management in diverse industries.

Conveyor Systems

Texam offers comprehensive conveyor systems:

- Custom design: In-house engineers create tailored conveyor systems
- Diverse range: Gravity roller, belt, lineshaft, ball transfer, skate wheel, and heavy-duty powered rollers
- Manufacturing: Conveyors built to exact specifications in our facility
- Professional installation: Our mechanical engineers ensure proper setup
- Complete service: We manage the entire process from concept to completion
- Industry adaptability: Solutions for manufacturing, food processing, logistics, and more
- Ongoing support: Maintenance and upgrade services available

Texam provides efficient, customised material handling solutions. Our expert team ensures your conveyor system fits your operational requirements and space constraints, delivering a complete package from design to installation.

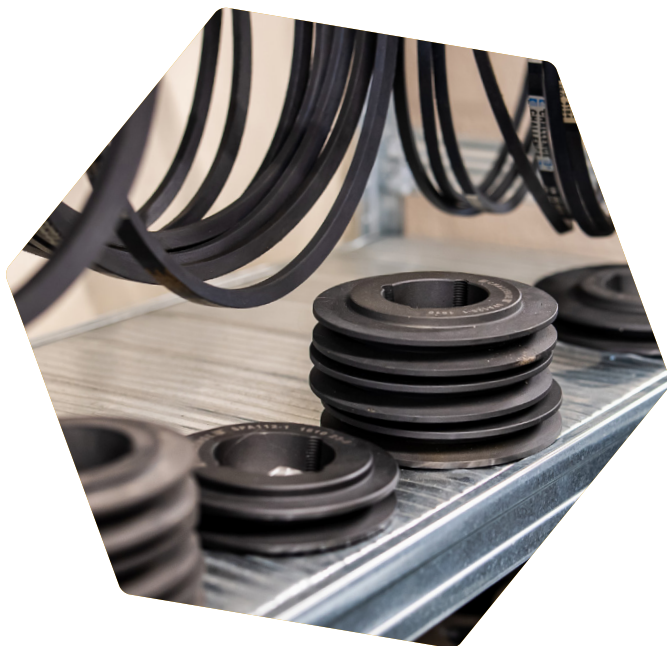

Power Transmission Products

Texam is Northern Ireland's leading independent stockist of power transmission products. We maintain a large inventory of essential components, including:

- Transmission chains and sprockets
- Vee belts and pulleys
- Taper lock bushes
- Shaft couplings
- Bearings and housings

Our extensive stock ensures quick turnaround times for a wide range of industries. With products from leading manufacturers, competitive pricing, and expert technical support, we're your one-stop shop for all power transmission needs. Whether you require a single replacement part or components for a complete system, our knowledgeable team is ready to assist you in finding the right solution for your application.

On Site Services

Texam offers a comprehensive range of on-site services to keep your operations running smoothly. Our team of dedicated engineers provides:

- Breakdown repairs: Swift response to minimise downtime
- Preventative maintenance: Regular checks to avoid unexpected failures
- Planned contract maintenance: Tailored schedules to suit your needs

- On-site fitting: Expert installation of new equipment

We understand that every minute of downtime can be costly. That's why our skilled technicians are equipped to handle a variety of mechanical issues across different industries. From urgent repairs to long-term maintenance plans, Texam ensures your machinery operates at peak efficiency. Trust our experienced team to deliver reliable, professional service right at your facility.

Trade Counter

Texam's Trade Counter offers immediate access to a comprehensive range of industrial and agricultural products, including pneumatics, conveyor parts, engineering plastics, and high-quality agricultural power transmission components. Located at our Lisburn headquarters, our trade counter provides expert, on-the-spot technical advice and fast access to essential stock, ensuring you get the solutions you need without delay.

Our power transmission range, featuring high-performance V-belts, pulleys, transmission chains and sprockets ensures your machinery runs efficiently and with minimal downtime. Whether you're looking for a single part or a custom solution, our knowledgeable team is ready to assist.

With an extensive inventory from leading brands like SMC, Radicon, and Hydromec, we ensure rapid service to keep your operations running smoothly. Whether it's for industrial or agricultural use, you can trust Texam to deliver reliable, high quality products alongside exceptional customer service.
