Trays

Enhance your customer's experience and serve them using the finest quality trays. Whatever tray you need, Harfield has the one for you.

Choose from a variety of materials and styles to best suit your needs. Plastic trays for an economical solution, Craft for style, touch, design and shape and Polyester for robust and hardwearing. Harfield's Meal Trays are the industry standard for quality, value and purpose and are now joined by sectional trays from our EPIQ European partners.

Our stock trays are available for next day delivery and our non-stock lines have a short lead time. Please note minimum order quantities will apply for non-stock lines. Please contact us for further information.

Many of our trays, can be personalised with your logo, strapline or images to really make an impact. Also look out for information on adding anti-slip to your tray choice. Please note that a + after the code denotes anti-slip.

Our friendly and helpful customer service team will be delighted to help you. Please contact us on 0161 477 5678 between 8.30am and 4.30pm Monday to Friday. You can email us at info@harfieldtableware.co.uk or visit our website for the very latest information at www.harfieldtableware.co.uk

Trays by use

When looking for a serving tray, the use of your tray is very important in order to guide you to the perfect product in your serving game. Should you start looking for polyester, laminate or plastic? Let's find out!

Plastic Trays

Spanning the entire range from eco-friendly to heavy-duty, plastic trays offer many advantages. The composition of our reusable plastic trays varies from bio-plastic or PP (polypropylene) to ABS to create an incredibly tough product. Standard rectangular, completely open or with compartments, in the colour of your choice. The Paturel trays now also feature visible wood fibres, to add an extra touch of authenticity.

Meal Trays

Polycarbonate and polypropylene compartment trays. Our sectional meal trays are robust for the most demanding of environments. Trays made from polycarbonate are virtually unbreakable, dishwasher safe and stackable. These trays make service quick and easy in fast paced settings to allow more customers to be served. Our bright colours are always popular. Polypropylene sectional trays are also robust and designed for education and healthcare. These trays are dishwasher safe. Food can be eaten directly from all our meal trays.

Product		Code	Dimensions	Colours

Hi Heat Trays

Designed to use in heated trolleys, ready for transportation and to keep the food warm upon delivery.
Made from polyester and also suitable for use from -50°C up to 140°C.

Product		Code	Dimensions	Colours
53x32.5cm 1/1 Gastronorm Hi Heat Tray		300TOF	1/1 Gastronorm	TOF
57.5x32.5cm Hi Heat Tray		301TOF	L 57.5 x W 32.5cm	TOF

Personalise your trays

Want a tray with your own logo or design? Do you have a unique idea for your own tray? Anything is possible with one of Harfield's trays. Contact us to make your idea or concept become a reality on +44 (0)161 477 5678.

Anti-Slip

An anti-slip layer can be added to most Laminated, Craft and some Polyester trays. Even your personalised trays can have an anti-slip layer. For the very best appearance we recommend dark tray colours when choosing an anti-slip option for a Laminated or Craft tray.

1

Send your logo, design or image.

2

You will receive a digital example to sign off the design.

3

You can order a sample (optional). A small charge will apply.

4

Receive your personalised trays in approximately 6-8 weeks.

Logo & design files

DO'S

We prefer vector based files in pdf, eps or ai file extension.

When using fonts, please create outlines for all text.

For images we prefer high resolution files with at least 300DPI at final print size in pdf, tiff, jpg or psd.

In production we need 1 cm bleed for a perfect finish.

DON'TS

We cannot deliver high quality prints with low resolution files, Word documents with pasted images or emails with a pasted image, please always enclose your files as attachments.

When opting for antislip on your serving tray, we recommend you to use darker colour in order to avoid discoloration of your antislip.

Requirements:

Logo or Design

Illustrator
Vectorial eps
PDF

Image or Design

TIFF, JPG or PNG
Include your fonts
300 DPI (dots per inch)

Due to the nature of the printing process, it may not always be possible to produce a perfect colour match. Again, due to the above process we will always quote a delivered quantity of +/- 10%. So, for example if you order 100 trays you may receive 100, 90 or 110 and you will be invoiced for the amount produced. By placing your order, you accept these terms. Please note that the personalisation service above applies to Roltex trays.

For personalisation of Harfield products, please call us for more details on +44 (0)161 477 5678.

Personalisation:

Listed in the table below are the different options offered for each tray type.

Product	Code	Dishwasher Safe	Personalisation Type

Care & Maintenance

Roltex Trays & S-Planks

Cleaning Instructions

Laminated Melamine, Earth Tray and Anti-slip Trays:
For the best hygiene results, we recommend that you always wash new trays before their initial use.

S-Planks and Polyester Trays:

As a matter of hygiene and safety, please always wash any new polyester trays and S-Planks three times before first use. Washing-up is one of the occasions when trays and S-Planks can be damaged. Even in water, the surfaces can become scratched if rubbed against each other with force. It is best to avoid putting too many trays in the water at once. It is perfectly safe to wash your trays in an automatic dishwasher. As soon as the water has drained away, there should be an immediate rinse cycle to flush away deposits of detergent which will form a film if allowed to dry.

Tea and coffee stains can be removed with bicarbonate of soda, and silverware cleaner will remove pencil marks caused by minute deposits of metal from cutlery. Abrasives and harsh scourers should never be used.

Storing

All Laminated Melamine, Earth and Anti-slip Trays should always be completely dry before stacking.

All trays and S-Planks are subject to abrasion from repeated handling and stacking. We recommend that you stack no more than one hundred items together, one on top of another. The storage surface should be perfectly flat to avoid warping of your trays.

To avoid scratching your trays, they should not be slid out from the bottom of a stack - always lift them out from the top.

Hi Heat

Our new range of Hi Heat tableware is suitable for use up to +140°C.

- Please follow the polycarbonate tableware cleaning instructions.
- Oven safe as well as microwave and dishwasher safe to maximum +140°C.
- Do not apply to direct heat.
- The bowls can be stored in freezers for pre-prepared meals, but please note they are not suitable for direct transfer from freezer to the oven.

Harfield Polycarbonate Tableware

Harfield polycarbonate products will give outstanding service providing the following points are observed:

- Never place the tableware near or on direct heat. For instance, do not put inside or on electric or gas cookers.
- Warming cupboards are usually safe for warming polycarbonate as long as they have no hot spots and do not exceed 85°C. Avoid warming for more than 60 minutes.
- Harfield polycarbonate tableware is microwave safe for reheating, but not for cooking food.
- Do not use bleach or abrasives of any kind i.e. scouring pads, scourers, cleaning powders or liquids etc.

Cleaning Instructions

- Harfield polycarbonate tableware is dishwasher safe and suited to hand washing and sterilising sinks. Sterilising sinks should not exceed 85°C.
- Maximum dishwasher temperatures should be 60°C - 65°C for the wash and 70°C - 85°C for the rinse. Higher temperatures may cause deterioration of the material.
- Some dishwasher detergents/rinse aids may cause stress cracking to polycarbonate tableware.

- For information on specific detergents please contact your detergent supplier or manufacturer.
- Washing in hot soapy water should prevent any build up of discolouration.
- Milton Sterilising Fluid may be used to remove discolouration.
- Please note that our polypropylene trays are not suitable to be washed in the dishwasher.
- After washing, rinse well to remove all detergent residue.

It is essential that your detergent and rinse aids are compatible with polycarbonate and that the correct dosages are used. Using too much or leaving tableware to soak for long periods can shorten the life of the product.

Hand wash detergents

Do not use bactericidal detergents when washing polycarbonate tableware as this may cause deterioration of the material. Always check suitability of the hand wash detergent with the detergent manufacturer.

Antibacterial tableware

Please wash thoroughly before use to ensure full effectiveness of this product.

O2T

O2T is a new Oven to Tableware range made from a high performance plastic suitable for cooking, steaming, serving and freezing. With its excellent resistance to sudden extremes of temperature, O2T is also suited to blast freezing / chilling. Operating temperatures: Min -40°C to Max +220°C.

The Do's and Don'ts of Heating/Cooking/ Baking With Your O2T

- Oven safe and Microwave safe to maximum +220°C.
- Not suited for use on induction or electric hobs, grills or direct flame of gas ovens as temperatures may exceed the maximum recommended.
- Can be used on heated surfaces as long as 220°C is not exceeded. IMPORTANT Do not overheat when in direct contact with hot surfaces.

Handling

- O2T containers are robust and chip resistant, but are not unbreakable. Avoid dropping O2T containers on their rim, especially when full and removing from the freezer.
- O2T warms up and cools down rapidly, so products may be hand held within minutes of removing from the oven and transferring to service.
- Avoid use of sharp metal knives which may result in surface scratches on your O2T oven to tableware. Use of a non metal utensil is recommended for portioning and serving food.
- O2T Gastronorm Bases, Lids and OvenDishes may be stacked to save space.
- Appropriate food content / date labels can be used without leaving residue.

Cleaning

O2T has a naturally non stick surface and should make cleaning easier with basic care:

- Dishwasher safe: do not exceed maximum temperatures Wash 65°C, Rinse 85°C.
- Hand wash and Sterilising Sink safe to maximum 85°C.
- Do not use scourers, abrasive or caustic agents or sharp cleaning implements which may damage the surface.
- O2T has good detergent resistance. The following detergents / rinse aids / sanitisers have been tested for compatibility at dosages recommended by the manufacturer. Always check detergent compatibility and correct dosages with your detergent supplier.
 - Suma Alu L10
 - Suma Rinse A5 and Suma Crystal A8
 - Suma Bac D10
 - Suma Linos L6.8
 - Revoflow Detergent P1
 - Suma Shine K2
- Avoid contact with strong acids.
- Some food products with a high sugar content (approx. 10% or more) may require a little extra care when cleaning due to potential surface food deposits. Do not use scourers to remove.

Polypropylene Range

- Maximum wash temperature 65°C.
- Large flat polypropylene trays may warp in dishwasher – we recommend handwashing.
- Do not apply to direct heat.
- Not safe for use in ovens or direct heat.
- Can be used for hot drinks such as tea and coffee.
- Microwave safe. Please note microwaving foods such as curry or other tomato based sauces may result in discolouration.
- Strong coloured food may also discolour polypropylene products.
- Freezer safe. As with all plastics, items stored in a freezer should not be dropped as this will cause them to break.

Delivery & Returns

Delivery

We aim to deliver on the next business day for all orders placed before 2.00pm. Orders requiring palletised delivery, booking in, to non-UK addresses or out of stock products may take longer. Please speak to our sales office for more information.

Please do not hesitate to contact us for specific delivery requirements.

T: +44 (0) 161 477 5678
E: info@harfieldtableware.co.uk

Returns

Should you need to return any items, we will give you a full refund if we receive the unused goods in a perfect resaleable condition, within 14 days of your purchase. Please speak to our sales team for more information.
