Why our customers trust us

In just five months, with Cognisys and Impact IT Solution's expertise, we've reduced vulnerabilities in our estate by over 70% and have a clear plan for addressing critical risks. Penetration testing and Cyber Essentials Plus have shown how vital it is for businesses to tackle software vulnerabilities—a key access point for bad actors. Success here demands collaboration, and together with our IG team, we're staying on top of this critical threat vector.
