Introducing
APEX

A REIMAGINING OF THE POPULAR
CLASSIC, BRAVA BENCH

AVAILABLE FROM
01.03.25

Transform your workspace
with a bench system that is as
functional as it is stylish.

Apex is a testament to thoughtful design,
quality craftsmanship and practical innovation.
Seamlessly combining optimal manufacturing techniques
with contemporary design aesthetics.

Design-led innovation

Every detail of Apex has been meticulously refined to enhance both form and function. At the core of this redesign is the introduction of a distinctive shadow gap, now incorporated across all panels, frames and tops. This design feature creates a cohesive, well-balanced profile that integrates effortlessly into any workspace.

Uncompromising quality

We prioritise quality over cost, using only metal-to-metal fittings, with no wood screws, for a solid and enduring build. The legs are constructed from a sturdy 40x40x2mm box section, designed to withstand the demands of a busy office environment. All legs come pre-fitted with adjustable feet, simplifying the setup process.

Apex Loop-Leg with Infill

Apex Goalpost Leg

Apex Cable Tray

FEATURES & BENEFITS

- Reversible and multifunctional cable tray.
- Improved frame stability with redeveloped beam brackets.
- Metal-to-metal fittings with no wood screws. We've focused on quality over budget.
- All legs designed to take pre-fitted feet.
- Simplified assembly – a new **One Bolt System** for all parts, pre-fitted feet and fittings packed with parts.
- Redeveloped modesty panel bracket for ease of fitting with keyhole openings.
- We have introduced a 700mm deep bench alongside our 600mm and 800mm.

MORE THAN JUST A DESK

Four leg designs

Choose from versatile styles to match your workspace:
Goalpost, A Frame, Loop Leg, or Loop Leg with Infill.

Expanded size options

Desktop depths of 600mm, 700mm,
and 800mm, with widths ranging from 1000mm to
2000mm, ensure compatibility with a variety
of spaces and requirements.

Adjustable tops

Designed to accommodate screens up to 30mm thick,
offering enhanced flexibility for different set-ups.

Enhanced beam design

Newly engineered beams provide superior strength
and stability, ensuring long-term durability and a solid
foundation for any workspace.

Simplified assembly

A **One Bolt System** is used for all components,
including tops, frames, and accessories, making
installation quick and hassle-free.

Reversible, shareable cable trays

Innovative cable trays can be reversed or
shared between sections, improving cable
management and usability.

Keyhole slots

Designed for one-person assembly, keyhole slots
make installation faster and more efficient.
