PVC Lifecycle

KPC has a key focus on ensuring waste is reduced, reused and recycled. All KPC's Book Wallets feature the Resin Identification Code (RIC) which identifies the type of plastic the item is made from.

All our PVC – Polyvinyl Chloride products therefore feature the chasing arrows symbol with a 3 in the middle. The structure of PVC lends itself to being mechanically recycled with reasonable ease. As shown in the diagram, using the correct facilities all waste PVC can be fully recycled and converted back into another useable product.

Waste PVC is collected and prepared for recycling.

Various products are manufactured using our waste PVC, these include Carpet Underlay, Childrens Playgrounds, PVC-U Windows and more...

KPC's Environmental Pact

KPC's focus on ensuring waste is reduced, reused and recycled is not just focused towards Plastic waste. KPC also recycles all their cardboard and waste cores. KPC's group: Red Arrow prides themselves on holding the ISO9001 and ISO14001 accreditation. KPC is focused on maintaining these standards.
