

IOSH Managing safely. Overview

This comprehensive training course has been specifically designed for managers and supervisors from all industry sectors who require a broad based knowledge of health and safety and safe systems of work.

Course Content

Introducing Health and Safety. Making it clear that managers are accountable for their teams.

Assessing risk. Demystifies risk and risk assessments. Introduces a simple risk scoring system for managers to carry out a series of risk assessments.

Controlling risk. Choosing the best methods and techniques for controlling key risks.

Your responsibilities. Examining how the legal system works and introducing Safety Management Systems.

Identifying hazards. Covers the main types of hazards typically encountered in the workplace.

Investigating accidents and incidents. Why things go wrong, why investigate accidents and how to carry out an investigation.

Measuring performance. How checks can improve health and safety. Using basic performance indicators with proactive and reactive monitoring and audits.

Protecting our environment. Introduction to waste and pollution control with a look at how organisations and managers can help reduce environmental impact.

Please note that the practical assessment must be completed in the workplace and submitted within two weeks of completing the course.
