### Transform your Independent School with Alliance

“

*Alliance was recommended to us by our purchasing provider. Their introduction, training and support to get us up-and-running was welcomed and effective and included a visit by their office-based team so we knew the friendly faces we would be dealing with directly. They are quick to support and quote for any new items we may require and with a 5 day a week delivery we can ensure we never run out. We have seen cost savings of 5-6% on our previous supplier, without any reduction in quality.*

## Our Environmental Commitment

At Alliance, we take pride in our role as a national distributor and are dedicated to making a positive environmental impact, both locally and globally. We are committed to reducing our environmental footprint through sustainable practices that align with environmental legislation and our ambitious sustainability goals.

We prioritise sourcing from UK manufacturers to reduce our carbon footprint, enhance energy efficiency with energy-saving lighting and harness clean energy through solar panels across our sites. We also minimise paper use by adopting electronic communication and invoicing.

## Sustainable Distribution Practices

We use advanced routing systems to reduce fuel consumption and emissions. Our fleet is designed for maximum fuel efficiency and maintained through proactive servicing. By consolidating deliveries, we minimise emissions. Additionally, we are transitioning to an electric fleet, including delivery vans, cars, and warehouse vehicles, to further reduce our environmental impact.

## Sustainable Product Practices

We partner with manufacturers that uphold high environmental standards, conducting audits to ensure compliance. Additionally, we offer transparency through displaying eco-certifications, empowering our customers to make informed environmentally conscious decisions
