

Basic Life Support Training for Primary Care Staff

Williams & Associates is a family run healthcare and education company offering BLS training for your staff. This course covers CPR, AED, Recovery Position & Choking (Anaphylaxis can be added if required).

Our fully qualified trainers bring years of hands-on experience in either clinical or emergency service settings.

We have been delivering in primary care settings for over 20 years and can provide references if required from regular clients.

We offer flexible sessions, at your location for both large and small surgeries.
