

Case Study 2024

Large History Museum in Lisbon New Insect Reserve

Project: Making & Installing New Insect Cabinets
Storage Products: 200 Large Drawer Cabinets
Storage Content: Insect Samples
Project Completion: January – March 2024

CD Sheetmetal were awarded the contract to replace the Museums' existing Wooden & Metal Cabinets, with bespoke designed Cabinets, sealed against museum beetle. Each cabinet had to have easily removable drawers, so samples could be safely stored, easily identified and located for use when necessary.

Client said, The Museum and the University are very happy with our new insect cabinets, and the Reserve has become a new standard for insect collections in Portugal, which we are very proud of.
