

Project 14

Royal Engineers Museum - Chatham

Project:	Equip existing library with bespoke planchests & display covers
Sector:	Ministry of Defence
Storage Products:	21 No bespoke 11 drawer drop down front planchests fitted with a display case on top of each unit
Storage Content:	Rare maps, books & architectural plans

CDS were commissioned to produce 21 No bespoke planchest units for the Royal Engineers Museum, the planchests design incorporated the unique drop down front design, which with the simple flick of the wrist the front of the drawer swings down allowing a smooth unbroken entry to the drawer, this is especially useful when handling fragile maps or documents. Each unit had anti-tilt and locking as standard and was unit was fitted with a lockable Perspex display case to the top panel of each unit.
