

Project 7

Ministry of Defence – Defence Geospatial Intelligence

Project: New Map Library, MacLeod Building, Feltham, Middlesex
Sector: Ministry of Defence – Defence Geospatial Intelligence
Storage Products: 535 No. 6, 12, 18 & 24 Drawer Steel Map Presses
Storage Content: 1.2 million military and civilian Maps & Air Charts

Over a 16month period CDS supplied and installed 535 number. Steel Map Presses providing the capacity to safely store the DGI Map Library's collection of 1.2 million military and civilian maps, each cabinet was designed in a modular construction of 3 separate 6-drawer units, to provide flexibility for future relocation if required and with a powder coated finish in DGI's corporate colours. The 18 drawer cabinets were specially designed and constructed to the high specifications demanded by the MoD.

These cabinets were a mixture of 6, 12, 18 & 24 drawer units with 50mm and 75mm deep drawers and locks. In critically secure areas units were supplied with special MOD approved Mersey Locks (shown in bottom middle photo below).
