

Project 9

Royal Geographical Society – Planchest Units

| | |
|--------------------------|---------------------------------------------------------------------|
| Project: | Unlocking the 'Archives' |
| Sector: | National Archive Library |
| Storage Products: | Planchest Units, shelving, mobile bases & bespoke storage solutions |
| Storage Content: | Historical artefacts, books, pictures and maps |

Together with our project partners, CDS were successful in being awarded the prestigious “Unlocking the Archives” tender for the Royal Geographical Society. The installation was designed in conjunction with an archive mobile storage system. These units were fitted with 1952 No. 33mm deep Planchest drawers, stacked 44 drawers high. In addition to this shelving, special artefact cabinets, X-ray and negative drawers were designed and installed.
