

Case Study 12

Natural History Museum – Herbarium & Entomology Cabinets

Project: Darwin 2
Sector: Herbarium/Botany - Entomology
Storage Products: Herbarium & Entomology Cabinets various sizes to take folders & trays
Storage Content: Botany folders, seed trays, Entomology drawers & Microscope trays
Project Completion: 2009

C&D (Sheetmetal) Engineering Ltd were successful in being awarded the prestigious project to supply and install 6000 specially designed Herbarium and Entomology cabinets for the new Darwin 2 building attached to the Natural History Museum in Kensington, London.

The cabinets were constructed to allow the most effective use for the storage of the museums samples, they were designed in a unique way to allow access from both ends of a double cabinet, sealed to stop the ingress of pests. Single cabinets were also supplied, all cabinets were supplied in 5 different sizes, to allow for storage of all the museums different folders and drawers to effectively and safely store their collections.
