

## + FIRST CLASS QUALITY EASIER INSTALLATION

The new RT 46 replaces the RT 45 in our product lineup.

With its elegant high-gloss plastic housing in the iconic D+H design, the new RT 46 MCP combines stylish aesthetics with outstanding ease of installation. It offers the same simple operation as the RT 45 but allows quicker access to the internal components thanks to the removable door.

This creates generous cable space and makes installation and maintenance considerably easier. The MCP impresses with its durability, reliability and excellent price-performance ratio.

### Product features

- » Easy maintenance and quicker access to internal components
- » Generous cable compartment: More space for neat and tidy cabling
- » Integrated QR code enables easy access to important service information
- » Distinctive D+H design: An iconic shape that combines style and functionality

### Technical details

- » For D+H smoke vent control panels
- » Can be used as main and auxiliary MCP
- » Optional integrated natural ventilation switches (RT46 LT)
