

Guest Call Pager-UK System

Customer Paging System with IP67 Waterproof Pagers

Guest Call PUK features our unique last in first out design charge base & IP67 rated waterproof pagers.

The aluminium charging base allows pagers to be returned to the top of the charge base and dispensed from the bottom ensuring equal usage of all pagers prolonging battery & system life.

A Guest Call PUK Paging System will transform the way you communicate with your customers. Guest Call PUK allows you to efficiently contact customers wherever they are located in your facility.

Hand a Guest Call PUK pager to waiting customers and allow them to relax whilst waiting for service.

You can add pagers to existing stacks or add charging bases as required, all managed from a single transmitter. PUK pagers can be programmed to vibrate, beep and flash and displays called on the LED display when alerted.
