VETTA PIPE BOXING

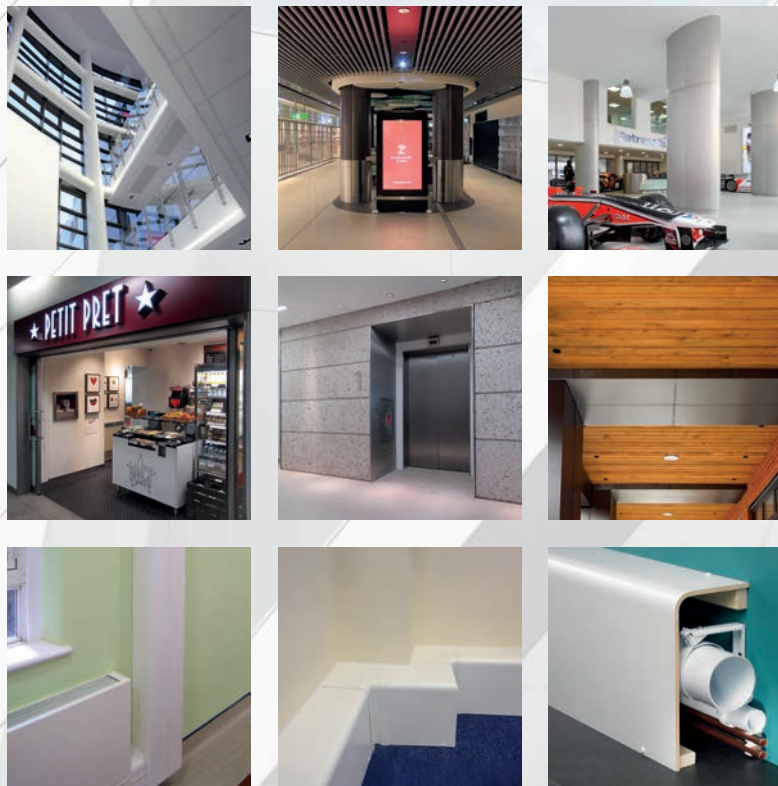

# Innovation, experience & service

Providing innovative, high quality casing solutions, supported by outstanding service, has enabled us to become a UK market leader in the design, manufacture and supply of decorative architectural casings.

Our Verta column casings, Vecta building linings and Vetta pipe boxing products are installed on countless projects throughout the UK, and for many architects, specifiers and contractors, Encasement is the preferred choice.

As a result, our products are used extensively in a range of sectors including transport, rail, health, education, retail, hotel and leisure, as well as commercial office refurbishment and housing in the social, affordable and private sectors.

The Encasement range offers exceptional choice and versatility. It's not only competitively priced but also supported by our manufacturing, logistics, customer service and supply & install capabilities, which enable us to deliver integrated and high-quality casing solutions.

# Verta column casings

Verta column casings provide stylish and integrated solutions for concealing internal and external structural columns simply, quickly and cost-effectively. With a diverse choice of materials, shapes, sizes and finishes, they can meet the broadest scope of specifications, installations and project requirements.

# Vetta pipe boxing

Where pipe work and building services need to be concealed, our comprehensive Vetta pipe boxing and casings range provide quick, simple and effective solutions.

Already used in the residential, education and health sectors, a wide selection of sizes and profiles are available to meet virtually any application.

In addition to the standard white resin impregnated paper finish, they can also be specified with high pressure laminates (HPL) and wood veneers, allowing the finish to blend in or contrast with existing colour schemes. Metal pipe boxing and flame retardant products are also included in the range.
