

# BITLogix's Robotic Process Automation (RPA) Solutions

*Building a Sustainable Tech Ecosystem*

## RPA at BITLogix

RPA uses software bots to mimic human actions on digital systems; logging into applications, moving files, extracting data, and filling forms. Our RPA services enable organizations to eliminate manual drudgery, reduce errors, and accelerate throughput.

## Implementation Roadmap

- 1 Automation Strategy  
2-4 weeks
- 2 Platform Evaluation & POC  
4-6 weeks
- 3 Automation Implementation  
6+ months
- 4 Continuous Improvement  
Ongoing

+92 4235781941

## FEATURED APPLICATIONS

1

### High-Volume Statement Requests (Banking)

Challenge: During peak times, customer requests for account statements spike from 500+ to 2500+

Result: 72% efficiency boost; 4,700+ hours saved/year

2

### Remittance Processing (K&N Filters)

Challenge: Manual processing taking 45-60 mins per file

Result: Processing cut to 15 min; 66% efficiency boost; 3,600+ hours saved/year ( $\approx 1.7$  FTE)

3

### HR Lifecycle Automation (Pharma)

Challenge: On/off-boarding & resource assignments

Result: 77.7% speed-up (45  $\rightarrow$  10 min); 2,200+ hours saved/year ( $\approx 1.0$  FTE)

4

### MNP Port-Out Automation (Telco)

Challenge: 100-200 daily CRM verifications under 2-hr SLA

Result: 86.7% speed-up (5 min  $\rightarrow$  40 sec); 2,000+ hours saved/year ( $\approx 1.0$  FTE)

5

### Sales Tax Filing Automation (CPA Firm)

Challenge: Repetitive tasks and data portal entry

Result: 96.7% reduction in processing time; 3,600+ hours saved/year ( $\approx 1.7$  FTE); 24/7 filing
