

Engagement Models for **Scalable Success**

Tailored solutions, timelines, and team structures

How do We work With You?

As we guarantee the high quality products and support transparency throughout the development journey, our clients are always an active part of it.

Our Models

We offer 5 distinct engagement models to suit diverse client needs.

2

Fixed Price Projects

- Get client's requirements.
- Develop a roadmap for the project and build an architecture.
- After testing, we deliver on the agreed time period at a fixed cost.

4

Technical Support

- BITLOGIX dedicates technical resources to an hourly rate.
- AMC (Annual Maintenance Contract) is signed to start working on the project on hourly basis.
- After deployment, we provide complete end-to-end support and maintenance.

1

Team Augmentation

- Clients can augment an in-house team for their projects.
- Our experienced team will work on the client's product.
- Deliver the solution within the defined time with complete support.

3

Time and Material Model

- Ideal for evolving project requirements.
- Transparent billing on actual efforts.
- Flexible, feedback-driven development cycle.

5

Hybrid Model

- Onshore-offshore teams for smart delivery.
- Local communication, global execution.
- Balanced cost, quality, and control.
