

OVERVIEW

From boardroom to show venue - a flexible and adaptable stand system with excellent cable management. The Avecta offers a stylish design that features clip-in mast panels which make cable management/adjustment simple. These panels offer simplicity for height adjustment when fixing your screen into position.

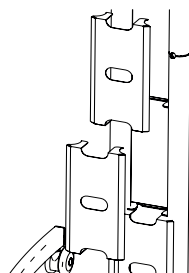

Comes with a universal or dedicated screen mount, 4-way power socket and metal shelf as standard.

KEY FEATURES

- Easy to use cable management via snap-in panel sections.
- Snap-in panel sections and simple adapter movement allows for smooth screen height adjustment.
- Single and twin screen options available.
- Range of installation versions including freestanding, mobile trolley, bolt down and floor-to-wall.
- Stylish, dedicated Microsoft Surface Hub 2S versions.
- Includes universal screen mount, AVP1 metal shelf and a 4-way power socket as standard. Alternative mounts and accessories are also available.
- Compatible with a range of video conference and sound/video bar mounts

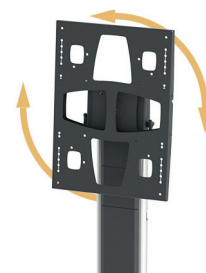

Adaptable screen centre height ensures perfect viewing position.

Snap-in panel sections provide excellent cable management.

Dedicated Microsoft Surface Hub 2S versions available.

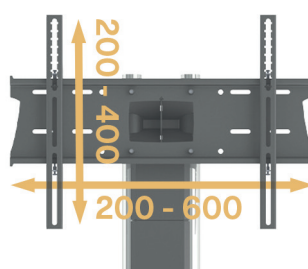

Rotating screen mount option - ideal for digital flipcharts.

4-way power socket built into the bottom snap-in panel.

Quick and easy to assemble - ideal for corporate settings.

Universal screen mount cover a wide range of standard VESA.

Wide range of video conference and soundbar accessories.
