SULCADO® CONTEMPORARY 3D WALL COVERINGS

Sulcado® slatwall panels are a great addition to any home and are ideal for a 3D feature wall in living rooms and bedrooms.

They are suitable for various environments, including homes, offices, schools, and commercial spaces, making them a popular choice for designers and architects. With the addition of the waterproof range, these can now be used in a bathroom environment as well.

Slat panels are a new and growingly popular product typically manufactured using from wood, felt, or other acoustic materials, they can be both sustainable and stylish. The waterproof version is made from extruded polymer foam which is a 100% recycled material with a wood or metallic effect design.

It is easy to install, making them a practical option for quick upgrades to a room's acoustics, lightweight, durable and maintenance friendly and 100% recyclable at the end of life.
