

Teaching Walls

Units can be made to measure with storage to suit your exact needs.

Teaching walls are a good use of under utilised space at the front of the classroom.

Modular units can feature tray storage, interactive whiteboards, pinboards and standard whiteboards to create a flexible resource space easily to hand.

Space for central interactive whiteboard with sliding standard whiteboard doors either side.

Cupboard doors can be used as standard whiteboards.

A variety of finishes are available. Tray colours can co-ordinate with your scheme.

Specimen/Equipment Storage

A combination of tray storage & glass fronted cupboards for specimens.

Sliding glass doors can be used for display of more delicate specimens.

Trespa shelves used for heavy duty chemical storage.

Space behind workbenches can be used for storing equipment.

Drawer & Bag Storage

Space under workbenches can be used for equipment, filing or bag storage.

Service bollards can be designed to accommodate tray storage and equipment

Bespoke bag storage and pigeon hole systems can be designed.

Bespoke slatted Ash bag storage, keeping bags away from the practical area.
