Minimum Requirements for an As Designed SAP Report for a New Dwelling under Part L Volume 1 2021

- Plans
- Elevations
- Sections
- Site plan
- North Point on site plan or labelled elevations
- Building, Construction & Insulation Notes (makes & models of insulation, thicknesses, etc)
- Specification Notes (proposed main heating system(s), secondary heating systems(s), glazing and door specification, renewable energy proposals)
- Thermal Bridging or Junction details – either from your insulation, brick/block supplier or calculated independently. These **must be** provided as the SAP will fail with default values.

Minimum Requirements for an As Built SAP Report & Energy Performance Certificate New Dwelling under Part L Volume 1 2021

- Completed 'Sign Off' form (**provided by us**)
- Glazing and Door U Value Reports
- Written evidence for the count of each type of bulbs, proof of fittings used to state power (W) and efficacy (lm/w) for each light fitting type entered
- Written evidence of manufacturer and model stating flow rate (l/min) of showers
- MSC Certification or Commissioning Reports for renewable energies (e.g. Heat pumps, MVHR)
- Revised drawings as per above if anything has changed (e.g. addition/removal of a window)
- Any changes since the Design SAP was issued (if you have not already notified me, e.g. change to make & model of insulation used)
- Digital photographic evidence from the builder (which in addition may include a report) to show the thermal continuity and quality of insulation of the built construction, air tightness and building services.
- Air test certificate

Any questions please contact us directly on 01653 693957.
