# Horizon with **webex**
by CISCO

Are your collaboration tools secure enough?

Get peace of mind with world-class encryption, compliance, visibility and control

Security is in our DNA. When you choose Webex, **you get security that's built-in**, not bolted on.

With the industry's most secure collaboration platform, you don't need to add on other security apps. Get powerful protection, built right in at no extra charge.

Security. It's what we do.

Rich history of security from network, to endpoints, to data center and cloud, all built on the Cisco Secure Development Lifecycle.

Secure by default

Secure meeting settings by default.

Your messages, files, whiteboards, and actions stay safe.

Recordings and transcriptions stored in-house.

Security at the heart of what we do

✓ Managed next-generation firewall for intelligent threat protection

✓ Compliance with Data protection regulations

✓ Cyber essentials plus certified

Strong encryption. From app to cloud.

🔒 Webex uses TLS 1.2 protocol and high-strength ciphers

∞ Encrypted media transmitted via UDP

🔒 After a session is established over TLS, all media streams encrypted

HMAC ensures authentication, integrity

📞 **Audio VoIP**

📹 **Video**

📶 **Screen share**

△ **Document share**

When sensitive data is on the line, companies trust Horizon with Webex.
