# Welcome

**From emergency call-outs to on-going contracts, we're a leading UK provider**

TCMS is one of the UK's most experienced commercial cleaning organisations. Established over 30 years' ago, we've earned a strong reputation for high quality work and a bespoke and responsive service. Critically, we also have a proven track-record in highly demanding hygiene sectors such as healthcare and food, and put this expertise to good use in all of our work.

A quality assured business, we're ISO 9001, 14001 and 45001 accredited and comply fully with all health & safety, waste management and infection control standards. We also invest in continuous training and in state-of-the-art equipment. Along with our own in-house teams of highly skilled professionals, we're able to call on a nationwide network of partners for specialist equipment and services, meaning we're able to deliver a complete cleaning and maintenance service to any organisation, at any time of day or night, and anywhere across England and Wales.

We take great pride in our work, and in developing long-standing relationships based on trust, quality and our ability to deliver a speedy and cost-effective service that's tailored to their precise needs. Whether you need help with a one-off emergency or an on-going contract, we have the capability and capacity to help.

 Builders cleans  
 Crime scene cleans

# Cleaning

**From office cleaning services to kitchen deep cleaning, we're able to meet all your needs**

Our customers are drawn from all sectors, and include offices, warehouses and schools, as well as airports, hospitals and hospitality venues. Some rely on us for a regular cleaning service, others for waste removal or one-off emergencies on a call-out basis. All value our professionalism and expertise, so wherever you're based, whatever your size, you can trust us to deliver a responsive and high-quality service.

For regular commercial cleaning contracts, we're able to supply and supervise teams at your premises, providing the services you require –

including windows, carpets and the sanitisation of office equipment and washrooms.

We've also delivered specialist industrial factory cleaning since 1982, including degreasing and the use of access equipment for high level cleaning. Other vital areas of expertise include deep kitchen cleaning and working in confined spaces.

Each assignment is carried out by highly trained crews using state-of-the-art technology including jet washing equipment and hydropoles, and all complies with current legislation and standards. To ensure rigorous quality, we follow RAMS and COSHH datasheets, and all work is fully supervised and monitored by an experienced management team. Where required, we're able to supply certification at the completion of each project.

Cleaning is our single core area of expertise, and it's available to you nationwide.

Visit us online and discover more about our commercial cleaning expertise. Or why not get in touch for a no obligation quote.

**Specialised services:**

- Decontamination services
- Deep kitchen cleaning
- Floor maintenance
- Anti-graffiti (graffiti removal)
- House clearances

# Specialist

**From deep kitchen cleaning to specialist sanitisation and coronavirus services, we have the expertise you need**

In addition to our commercial cleaning services, we're able to offer specialist expertise in many critical areas, including graffiti removal, floor maintenance and biohazard cleaning.

**Deep kitchen cleaning.** We have the equipment and expertise to meet every requirement, including duct, canopy and extraction, to TR19 standards. Certificates are provided on completion.

**Floor maintenance.** This includes the repair and resealing of a wide range of floors including marble and wood. We also offer contracts for regular maintenance to protect building aesthetics and your investment.

**Biohazard cleaning, sanitisation and decontamination, including for COVID-19.**

We offer intensive biohazard cleaning with the ability to disinfect sites and protect your people and property – typically within 24-hours of call-out.

Complying with all Public Health England guidelines this is a nationwide service, delivered by fully equipped and highly trained personnel. Using sophisticated technology including 240V fogging equipment, we

undertake a complete deep-clean of your site, wiping down equipment and all touchpoints. The approved chemical we use has a 99.9% kill ratio for the Coronavirus pathogen to give complete peace of mind.

Following the sanitisation of your site, we arrange for the safe removal and incineration of hazardous materials to prevent cross-contamination, and issue you with a certificate to show that full coronavirus disinfection has been completed. We can also offer ATP swab testing as part of this service.

You can find out more about our specialist services on our website. Better still, call us to discuss your needs or request a no obligation quote.
