## DECORWALL THERMO-SLAT

Are you looking for a modern solution to wall panelling that not only enhances the aesthetic of your space but also contributes to its thermal comfort? Introducing the Decorwall Thermo-Slat range – modern slatted wall panels designed to make your rooms feel warmer and more inviting. These panels stand out with air pockets at the back, ensuring they are warmer to the touch than traditional plaster walls and thereby adding to the overall warmth of the room.

Each wall slat in the Thermo-Slat range is ingeniously designed with a cavity at the back, creating thermal air pockets. This feature is particularly beneficial as it helps retain heat during colder months and keeps the room cool in the summer, offering year-round comfort. The aesthetic appeal of these panels extends beyond indoor spaces; they are an excellent addition to any garden room. Installing Thermo-Slat panels in your outdoor living spaces ensures you can enjoy these areas throughout the year, regardless of the season. Choose the Decorwall Thermo-Slat range for a beautiful and functional upgrade to your living spaces, both inside and out.

HARDEX 'V' GROOVE | STURDY T&G PANELLING

## DECORWALL HARDEX 'V' GROOVE

Are you looking for wall panels that offer the perfect combination of toughness and convenience? The Decorwall Hardex V Groove range is precisely what you need. These panels, while similar in durability to the original Hardex range, feature a unique corrugated structure. This design not only maintains the strength but also makes them lighter in weight and easier to handle. Each panel in this range is 600mm wide, offering a practical and efficient solution for wall panelling needs.

A spin-off from the exciting Hardex Solid Wall Panelling series, the Hardex V Groove collection brings a fresh perspective to this robust range. Available in various colours, these sturdy panels are designed with a narrower 600mm width, differing from the original Hardex's wider 1220mm panels. This modification makes them more versatile and suitable for a broader range of applications. Whether for residential use or commercial settings, the Hardex V panels offer the resilience and style of the Hardex line but with the added benefit of being more manageable and adaptable to different spaces. Choose the Hardex V range for a balance of toughness, style, and practicality in your wall panelling solutions.

It's designed for those who seek durability, style, and cutting-edge composition in their flooring solutions.

The collection includes ten wood effect and ten stone effect tile finish options, each featuring a wear layer of 0.30mm. These options provide a range of aesthetic choices, ensuring that there is a style to match any interior design. Opt for the Decorfloor WPC Flooring with built-in underlay for a sophisticated, high-performance flooring solution that beautifully mimics natural materials.

# NATURAL COLLECTION

The Natural Flooring Collection in this range boasts a composite core construction, distinguished by a higher filler content and a higher density compared to standard options. One of the key aspects of this technology is the omission of a foaming agent, which traditionally introduces air bubbles into the core. The result is a thinner, harder, and stiffer plank or tile, offering an unparalleled level of durability and stability.
