27	<b>DRY VERGE SYSTEM &amp; ROOF RIDGE KIT:</b>	Ensure robust, weatherproof roofing edges with these maintenance-free products.
28	<b>KONIG TOUCH UPS:</b>	Konig touch-up products provide quick and easy repairs for wood and plastic surfaces.
28-31	<b>FITTING ACCESSORIES:</b>	Useful tools and ancillaries for your exterior project.

EXTERNAL PROJECTS:

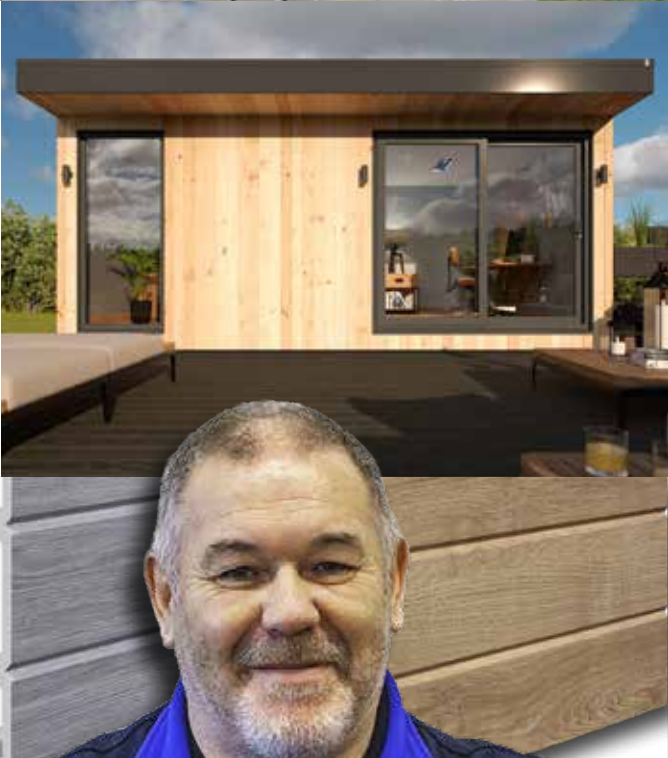

Introducing our  
**EXTERNAL PROJECT  
SPECIALIST ...**  
*Stewart Slatter*

Looking to transform your outdoor space? Our in-house, external project specialist Stewart can help with all aspects of your property's exterior. We cover everything from guttering and skypods to decking and fencing!

If you're planning on starting an external project just speak to Stewart and see what he can do for you. You can give him a call or pop in and see him but for larger projects we recommend booking an appointment.

**Call us on 01642 455 945 and ask for Stewart or try his direct line on 01642 035 375. Alternatively you can email any enquiries to [stewart.slatter@mbdiy.co.uk](mailto:stewart.slatter@mbdiy.co.uk)**

KERRAFRONT 201 & 202 CLASSIC FAÇADE CLADDING:

VOX

KERRAFRONT

Once installed, Kerrafront does not require any maintenance in its lifetime. Kerrafront guarantees savings - it protects the interior of the building and prevents the loss of heat. It ensures good air circulation, which prevents mould. Assembly is fast and easy due to low weight, elasticity & simple jointing.

Classic: Timeless Aesthetics and Popularity

Connex - Unique Jointing System

Connex is an aesthetic connection of panels without additional connecting accessories.

The Kerrafront panels in the Connex system are 2.95m long and are equipped with built-in special hooks at each end, making their installation quick and easy.

The connections are almost invisible in most of the ranges, however the Trend range join creates a small 'V' groove.

**FRONTO** Introducing the new collection of VOX Fronto outdoor slat panels. For use on walls and ceilings, the panels will work well on an entire building or as a single accent on one wall. You can install Fronto slat panels in a vertical or horizontal position. Lightweight, waterproof, easy to clean, maintenance free, quick and easy to install, Fronto slat panels are highly impact-resistant, with a high resilience to changes in temperature.

**MAX-3 TECHNOLOGY**

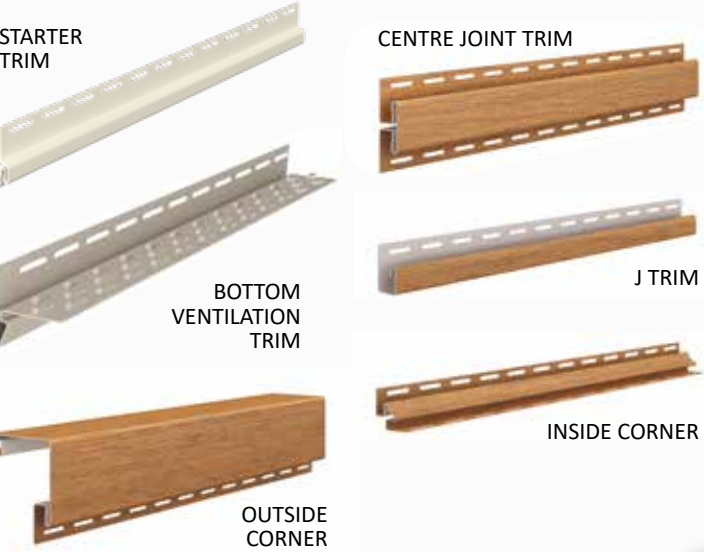

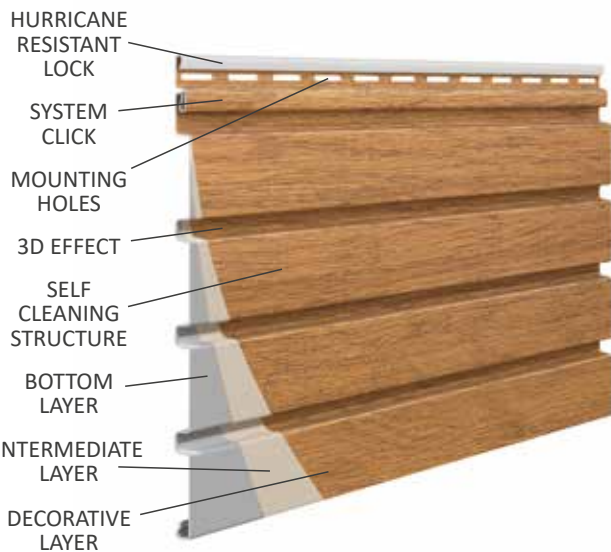

- 1 LIMITED LINEAR EXPANSION
- 2 INCREASED IMPACT RESISTANCE
- 3 PRODUCT RESISTANCE TO WEATHER CONDITIONS

FRONTO EXTERIOR SLAT PANELS:

Fronto outdoor slat panel are made with the innovative Max-3 technology. Each panel is constructed with 3 layers with the top layer being responsible for resistance to changing weather conditions. The middle layer provides increased impact resistance and the bottom layer has high resistance to both low and very high temperatures. Due to this technology, Fronto panels have a durability similar to metal panels!

FRONTO EXTERIOR V BLACK PANELS:

Outside Corner		✓	✓	✓

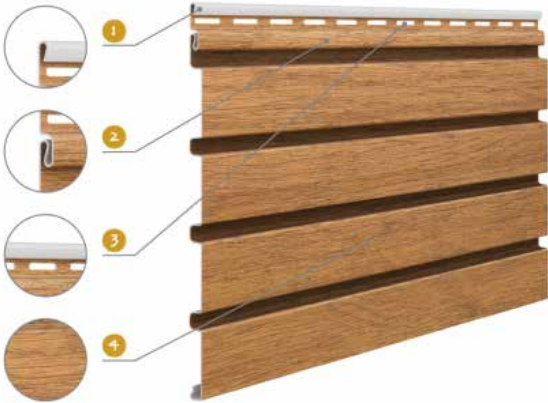

FRONTO V BLACK

The decors in the V-Black collection have dark printed grooves, which allows for greater contrast with the wood grain print on the lamella and a more three-dimensional effect. When laid on a façade, these panels look beautiful and modern.

MODERN SOLUTIONS:

- 1 HURRICANE PROOF LOCK
- 2 CLICK LOCK
- 3 MOUNTING HOLES
- 4 SELF CLEANING STRUCTURE

1. The hurricane proof lock ensures better adhesion of the panels to the façade and eliminates the noise the panels make in high winds.
2. The click lock allows the panels to be joined quickly and securely, making installation easier.
3. Mounting holes speed up installation.
4. The self-cleaning structure reduces the buildup of dirt and dust, making it easier to keep the façade clean.

# EXTRU DA DECK

Extrudeck is a premium decking product which uses a co-extrusion manufacturing process to combine multiple layers into a final finished product providing strength and durability. The range is available in four stylish colours, each being reversible; meaning you can choose from a smooth grain on one side or a more prominent texture on it's reverse.

## MB WPC DOUBLE SIDED DECKING BOARDS & RIGID TRIMS

Developed using WPC (Wood Plastic Composite) which, unlike traditional timber decking, will not splinter or crack. It is water resistant and enjoys a much longer life span than the usual materials; the nature of the composite material means that it will never need to be painted, sealed or stained. Simply clean with a brush and warm soapy water!

MIXED COLOUR WPC DECKING:

Natura Deck

01 GREY

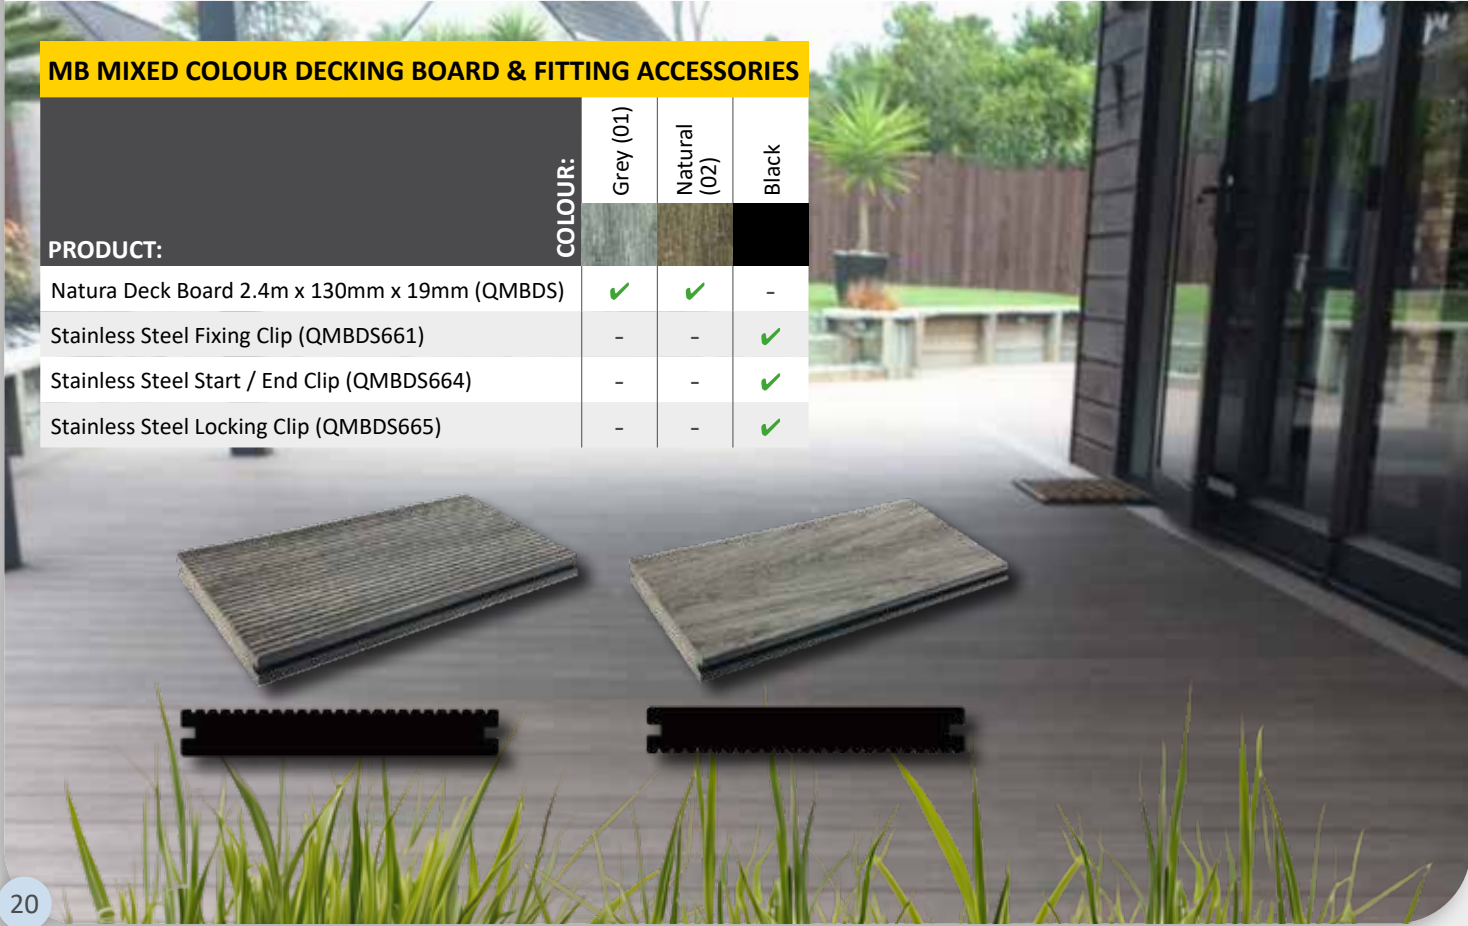

02 NATURAL

Introducing Natura Deck, the perfect blend of style and durability for your outdoor spaces. Crafted from high-quality Wood Plastic Composite (WPC), this natural mixed-color decking offers both aesthetics and functionality. Choose from two stunning shades that seamlessly blend with any outdoor decor.

With a versatile design, one side features a flat traditional plank for a classic look, while the reverse side boasts a grooved plank for enhanced grip and a modern appeal. Whether you're creating a cozy patio or a vibrant garden pathway, Natura Deck provides the perfect foundation. Elevate your outdoor living with Natura Deck – where beauty meets resilience.

HIGH STRENGTH COMPOSITE DECKING & FENCING:

Ronjack composite decking is a great choice for any garden, thanks to its low maintenance and high durability benefits. It's made from a mixture of hardwood powder and recycled plastics, using up to 95% recycled and waste materials in its production making it highly environmentally friendly.

This deep embossed composite decking is manufactured with a square chamber structure that creates a high strength, stable board without the need for added weight. They are also low maintenance and slip resistant.

Ronjack wood plastic composite fencing will stand the test of time, offering a long lasting fence installation that will resist fading, rotting or warping making it a great choice for any outdoor project or garden renovation.

A low maintenance, long-lasting timber alternative, manufactured using high strength wood plastic materials with no need for painting, staining or sealing. It features a UV stabiliser to protect against colour fading.

Pair with Ronjack composite decking and balustrade products for a complete, complementary garden design.

PERGOLAS & VERANDAS:

CALL FOR DETAILS

OASIS PERGOLA DELUXE - RETRACTABLE LOUVRE SHOWN ABOVE

OASIS VERANDA - GLASS OPTION SHOWN ABOVE

The Oasis verandas also come in two options. The glass veranda with a clear glazed roof allows you to enjoy the daylight and uninterrupted views of trees, birds and stars and gives you space to enjoy being outdoors, while offering you shelter from bad weather. A glass roof means it won't block out the light coming through your home's windows.

The Oasis pergolas come in two options. The Deluxe pergola has a retractable roof and is available in eleven sizes. At the touch of a button you can change an open space to a covered up area if it's too sunny or starts to rain. Alternatively the standard pergola has a fixed rotating louvre roof and is available in six sizes. Using a remote control the louvres can be tilted to change the lighting, shade and airflow. In the winter the waterproof roof protects against the elements.

Both options also come with the option of adding an LED light strip and you can also choose to have your pergola freestanding or as a canopy attached to the house. The pergola range are all manufactured with grey high-quality aluminium square frame which is solid, durable and weatherproof.

OASIS PERGOLA - FIXED LOUVRE SHOWN ABOVE

The Oasis veranda with polycarbonate roof is fully customisable to your needs, it comes in a choice of three roof colours. For a clear view so you can see the sky and trees around you, choose a clear or ultra-clear roof. Or for a bit of protection from the sun, but still with plenty of light coming through, opt for opal or solar control.

In addition you can choose from three frame colours and two types of leg, guttering and footplate. And you can choose to have it installed with one side attached to your house, or freestanding, away from the house.

They're available in three widths and five depths, ranging from our smallest at 4.06 x 2.50m, to our largest at 6.06 x 6m.

All our verandas have an aluminium frame in a choice of three colours: white textures, cream white or grey textured.

KYUBE GARDEN ROOMS:

Get more out of your garden with a bespoke Kyube Garden Building. These can be individually tailored to your specific requirements and are handmade to order in the UK. Whether you want to create a home office, entertainment space, or even a child's playroom, the flexible options ensure it's easy to design your own Kyube- creating that much needed additional space in your home which can be used all year round.

There are two bespoke Kyube solutions, which can be adapted to suit your taste and requirements. Both frame options are available in a range of sizes to suit any shape and sized garden.

KYUBE TIMBER FRAME GARDEN ROOM:

- Fitted with with choice of Coastline exterior cladding.
- Selection of door, door furniture and window colour.
- OSB boarded and insulated interior, allowing you to decorate the room to your design.

KYUBE PLUS GARDEN ROOM:

- Modular timber building with Steel base.
- In addition to choosing your exterior finishes this building comes with the option to select an interior pack / finish.

CALL FOR DETAILS

SKYPOD - PVCu PITCHED ROOF LANTERNS:

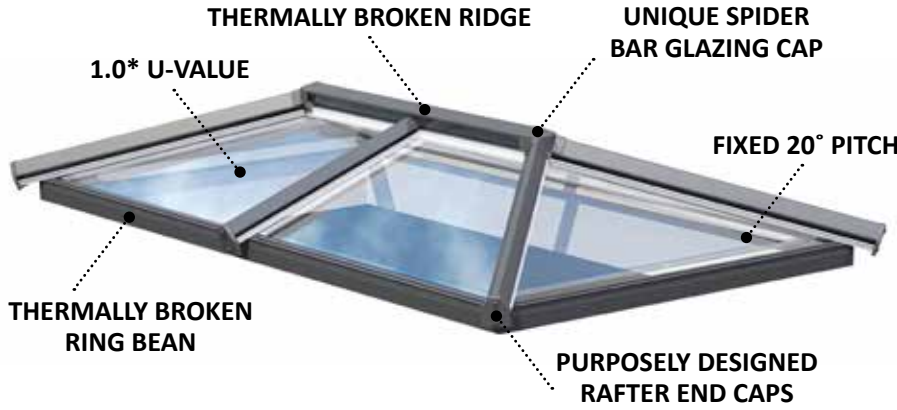

PITCHED LANTERN ROOFS					
PRODUCT:	COLOUR:	Rosewood	Moondust Grey	Golden Oak	Anthracite Grey
		White			
Up to 1.5m x 1.5m Skypod	ALL OUR SKYPODS ARE MADE TO ORDER - PLEASE ASK FOR DETAILS				
Up to 1.5m x 2.75m Skypod					
Up to 1.5m x 7.45m Skypod					
Manual roof vent					
Brass coloured winder					
Chrome coloured winder					
Electric switch vent					

Skypods are a beautifully cost-effective way to add height and space to a room. Great looks & energy efficient- a perfect alternative to traditional roof windows, roof skylights or conservatory roof systems.

- Cheaper than aluminium options.
- Designed for superior performance.
- Fast, accurate installation with a choice of frame colours and matching accessories.
- Perfect day blue glass with U-values as low as 1.0\*.
- 20° fixed pitch.
- 10-year guarantee.

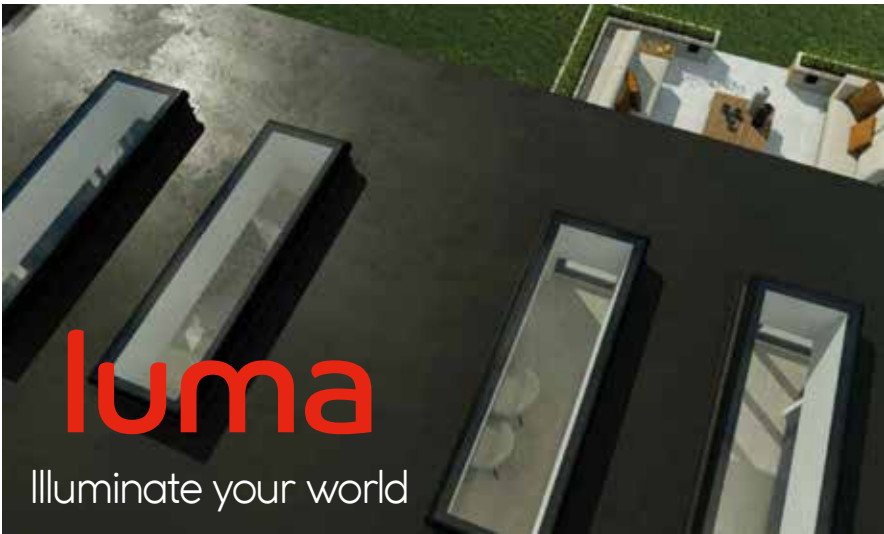

\* Centre Pane U-Value. Standard U Value is 1.2 centre pane. U-value is applicable to glass only.

LUMA - ALUMINIUM FLAT ROOFLIGHTS:

ALUMINIUM FLAT ROOFLIGHTS			
PRODUCT:	COLOUR:	Matt Black Frame	White Frame
		Any RAL colour	
Square designs from 500 x 500mm to 1400 x 1400mm	MADE TO MEASURE		
Rectangular designs from 500mm wide up to 3000mm projection			

Luma flat rooflights are elevated, fixed shut, flat roof windows with a sleek and contemporary look. And, unlike roof lanterns, there are no bars across the glass to interrupt your view of the sky or cast shadows across your room. They are the perfect way to flood your home with natural light.

Luma is available with either neutral or blue tinted glass. Tinted glass still allows the light to flood in but reduces uncomfortable glare when the sun hits the glass.

The lightweight, high impact and insulating nature of triplewall polycarbonate sheets is perfect for outdoor projects, plus our clear sheets allow light to enter, maximising daylight.

Features & benefits:

- Made from very strong polycarbonate resin.
- UV layer on outer surface to protect against uv degradation.
- Easy to cut down to width or length with a fine tooth saw (or can be ordered in cut to size).
- Ideal material for secure outdoor projects such as greenhouses, covered walkways, canopies and roofing, and skylights.
