

# KAP Access Platform

The KAP access platform range is designed for heavy-duty use.

Featuring strengthened treads and an extra-large platform with one side exit chains included as standard (allowing customers to choose which side the exit is on).

If you prefer a version with all fixed sides, please refer to our options and extras page for more information.

This platform is highly favoured by customers for loading and unloading vehicles.

- ✓ Safe Working Load Of 500kg
- ✓ Working Platform Size 700 x 1600mm (WxD)
- ✓ Customisable Exit Options
