

Industrial Heating Blankets IBC Heater for 1000L IBC Container

Viscous materials such as syrup, sugar, and fats can be difficult to discharge from an IBC. Heating the container with an IBC heating jacket can make materials smoother and less viscous, reducing waste and expense.

- 1, 2, or 3 thermostats adjustable from 0-90°C
- Durable, lightweight design with quick release buckles
- Compatible with standard 1000L containers
- Can be used to heat a variety of industrial liquids

IBC Heater with 2 Heater Bands and IBC Insulated Lid

IBC Heater is the perfect solution when it comes to quickly and effectively heating up fluids and materials making them very easy to empty from a container with minimal to no waste product.

Produced with either 1, 2 or 3 thermostats, adjustable from 0-40°C or 0-90°C, making it very fast and safe to heat liquids and maintaining the wanted viscosity for the content in the container.

Designed in a durable, long-lasting, high quality and lightweight material. Comes with quick release buckles making the IBC heater easy to attach to any standard 1000L container.

This also makes this heater perfect to use when transporting 1000L containers with content that requires specific temperatures or viscosity.

Please Note:

For a faster and optimal heating process we recommend using the IBC insulated lid (sold separately). The lid easily attaches to the top of the container, reducing waste of heat.

Specifications:

- Teflon coated Polyester Material
- Polyester Insulation
- Silicone Heating Wire
- Adjustable quick release buckles
- 3M Power Cable (no plug)
- Safety Thermostat
- Standard sizes e.g. IBC 1000L
- Up to 3 Digital Thermostats 0-90° (1-zone 0-40°C)
- IP40 Protection (Optional IP54)
- Insulation lid sold separately
- Warm-up duration approx. 48h (1000L drum with water starting from +15° C to +50° C with 2x1000 W heaters and isolation lid)
- Warm-up duration approx. 48h (1000L drum with water starting from +15° C to +70° C with 3x1000 W heaters and isolation lid)

Ideal for:

- Water.
- Oils and also diesel fuel.
- Resin.
- Vaseline.
- Wax, e.g. lanolin (wool wax or wool grease).
- Fats.
- Butters e.g. Ghee.
- Glue and adhesive.

Dimensions:

SKU	Description	Wattage	Volt	Temp
11-9860A	IBC Heater with 1 Heater Band	1300W	230V	0-40°C
11-9861A	IBC Heater with 1 Heater Band	1300W	110V	0-40°C
11-9860	IBC Heater with 2 Heater Bands	2 x 1000W	230V	0-90°C
11-9861	IBC Heater with 2 Heater Bands	2 x 1000W	110V	0-90°C
11-9861B	IBC Heater with 3 Heater Bands	3 x 1000W	230V	0-90°C
11-9861D	IBC Insulated Lid
