Specialists in Aluminium Solutions

Welcome to DRS, manufacturers and suppliers of high-quality, advanced aluminium doors, bifolds, patio doors, windows and roof lanterns.

Our expertly crafted aluminium products combine style with functionality, offering a variety of configurations and colours. They are designed to deliver the perfect balance of innovation, energy efficiency, security, and modern design. All our products are individually tailored to your exact requirements, ensuring a perfect finish.

At DRS our commitment to exceptional customer service means that from the moment you place your order, you'll receive support and clear communication at every step. We're here to make sure your experience with us is smooth and hassle-free, from your initial inquiry through to delivery and support.

We are proud to offer reliable delivery to most areas across the UK, ensuring your products arrive safely and on time. We care about our customers and our planet; and promise to make the most efficient journeys we can in the most effective way to help reduce our carbon footprint.

Ultra Slim Aluminium Classic Heritage Doors

Perfect Period Charm

The Classic Heritage Door combines the elegance of traditional art deco styling with modern functionality.

Offered as a single entrance or French door, it beautifully merges the charm of traditional art deco design with contemporary functionality. Featuring a period-inspired lockbox, the Sheerline Classic Heritage Door exemplifies the blend of classic beauty and modern performance. It is an excellent option for both contemporary and traditional residences, particularly for those who desire the sophisticated appearance of steel-look doors.

The Sheerline Classic Steel Look Ultra Slim Aluminium Heritage Doors add an air of elegance to any home, appealing to discerning homeowners. With their refined steel-like finish, these doors provide the strength and durability of aluminium while preserving the timeless elegance associated with steel. They are perfect for those who admire the enduring allure of steel but seek the benefits of modern door technology.

- > Heritage doors with a period-inspired lockbox

- > Available as single or French doors
- > Multi-point security with Ultion cylinders
- > Complies with Part L Building Regulations
- > Optional PAS24 upgrade
- > 10 year guarantee

Slim Sightlines

Discrete yet strong aluminium frames give you sightlines as slim as 60.5mm. Maximising the sunlight these beautiful aluminium doors let into interiors. Adding to the feeling of space and tranquillity to a property.

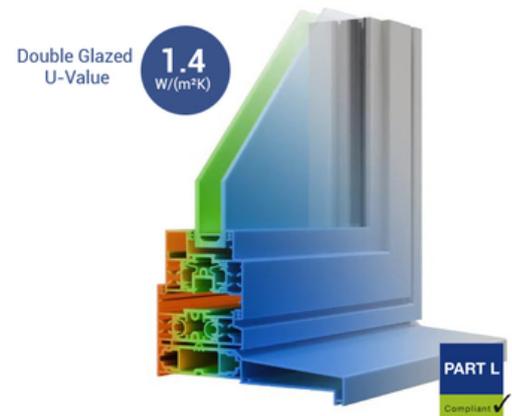

Patented Corner Construction

The patented corner jointing method reduces waste during manufacture and also helps eliminate misaligned frames. This clever method of construction is not only good for the environment but also helps lock in quality to every Classic Heritage Door.

Thermlock® Technology

Thermlock® offers almost double the insulation when compared to polyamide. Making Classic Heritage Doors inherently more efficient than systems that use polyamide thermal breaks.

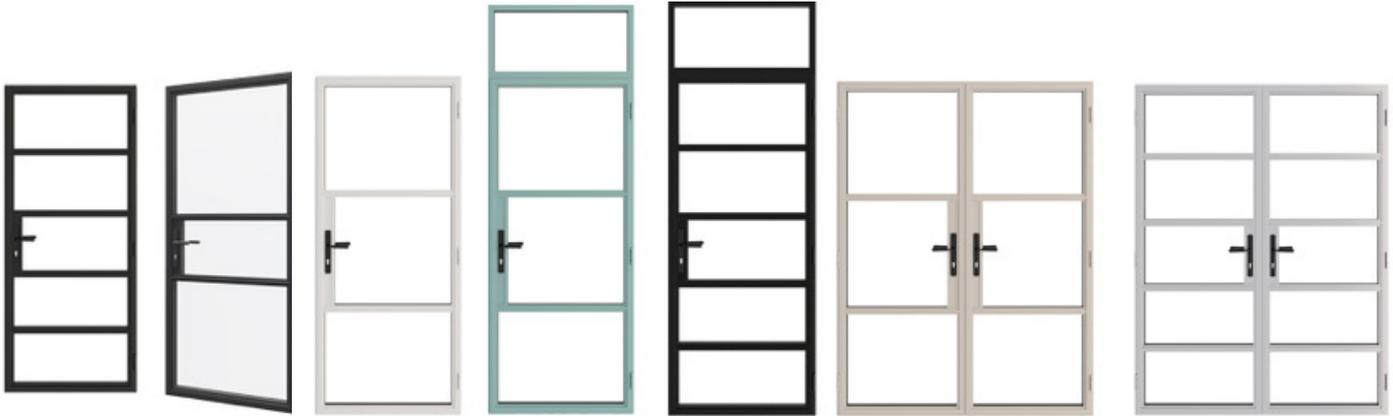

Secured by Design

The Classic Heritage Door has passed the SBD's stringent test criteria. It provides a recognised standard for all security products that help to deter and reduce crime. The SBD upgrade is available on our Heritage Doors, offering homeowners additional peace of mind.
